This Amendment is issued to correct the following:

(1) RESPOND TO BIDDER'S QUESTIONS:

QUESTION 003:

Section 3.2.1 Achievements of Proponent on Projects . If one or more of the three projects exceeds the time period of 10 years, is the entire project deemed not comparable and therefore ineligible as a reference project or would it just receive a score of 0 on one component of Generic Evaluation table under Section 3.3.1 but be scored on other components of the scorecard? Assuming that the project is deemed eligible but scores 0 on one or more of the components of the scoring card, could PWGSC provide a revised scoring card indicating how the projects will be scored?

ANSWER 003:

one or more of the three projects submitted exceeds the stated time period, it would be marked lower than a comparable project that was completed within the stated time period. However, it would still be deemed eligible and other aspects of the project would be evaluated for the rating. Information on the weighted ratings for each criteria are provided in Section 3.3.1 Technical Rating, but a more detailed scorecard will not be provided.

QUESTION 004:

Section 3.2.1 Achievements of Proponents on Projects – Would PWGSC consider extending the time period for project eligibility to 15 or 20 years recognizing that the last 7-8 years or so have been either in a recessionary economy or post-recessionary economy. Given the length of time to develop and execute major historical projects and the fact that economic factors have limited the markets since, the timeline of 10 years appears to unfairly advantage firms who had ongoing projects prior to the 2008 market crash.

ANSWER 004:

Statistics Canada recognizes that Canada has been in a post-recession period since 2010. Accordingly, the following change (2) have been made.

Question 005:

Would it be possible to extend the solicitation period?

Answer 005:

At this time, it is not PWGSC's intention to extend the solicitation period.
