ADDENDUM # 1

Re: Request for Proposals T8080-150063
Hazardous Material Assessment for the MV Princess of Acadia

No consideration will be given for extras and/or changes because the tenderer was not familiar with the contents of this Addendum.

Questions have been received from potential tenderer about the subject Request for Proposals. The purpose of this Addendum to the Request for Proposals is to summarize the question and answer the information of all potential bidders.

Question #1:

There is mention of Lloyd's Register certification, and this is not something we are familiar with. We have been in the environmental industry for over 23 years now, and have been conducting hazardous materials surveys/ assessments over the entire 23 years. We do have experience in this field on vessels as well, and would be well equipped to carry out this project, but we are looking for assistance/guidance with the Lloyd's Register aspect. Can you help?

Answer #1:

The Lloyd's Register certification is essentially an Inventory of Hazardous Material (IHM), previously known as the Green Passport.

The IHM is an inventory of materials present in a ship's structure, systems and equipment that may be hazardous to health or the environment. It is intended to be a reasonable listing of known or expected hazards, at the time of drawing up the inventory. Once the IHM has been reviewed by class, a Statement of Compliance (i.e., Green Passport) can be issued to certify the level of detail in the report, which helps to ensure that the contractor disposing of the vessel is aware of all contaminants and can associate a cost with their removal.

For more information, you can refer to: http://www.lr.org/en/images/213-35792_Guide_to_the_IHM_2014_01_tcm155-247789.01_tcm155-247789.pdf

Tenderers are to acknowledge this Addendum by signing in the space provide below and enclosing a copy of this document with their proposal.

All other terms and conditions of the Request for Proposals remain unchanged.

Yours truly,
