This amendment 001 is being raised to answer some questions from potential bidders as follows:

Question 1

Without the use of cross aisle ties for the racking, our engineer has suggested the following specs which I would have to quote for this job.

- Six beam levels rather than seven.
- The top beam level, (6th) should be installed at 23'-6" above the floor.
- Special 7-1/4" wide x 5" D x 3/8" thick base plates with (4) 1/2" Dia. X 4-1/2" long HILTI Epoxy anchors per frame. (2 per post)
- (7) bays all in one continuous row (No stand alone bays)
- Minimum height for double posts to be 57" high.

Answer 1

All the changes or additions to the specification that are mentioned are acceptable to the Department of National Defence. We can accomplish our goals with those changes.

Question 2

In reference to Annex A, Requirement, 1. Provide and Complete the following,

e. Design and selection information

viii. Accessories: Wire mesh decking, four (4) up right post protectors. Mesh protection screen. Screen to match the existing.

QUESTION: Is a sample image of the protection screen available to match?

Answer 2

The contracting authority has four (4) sample pictures.

Please email nancy.dunphy@pwgsc.gc.ca and she will forward you the jpeg files.
