PROJECT TITLE

Multi-mission Antenna Reservation System (ARS) for the Canadian Space Agency (CSA)

This Amendment 002 provides answer to a request raised by one potential Bidder as of August, 28, 2015.

ALL TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.

AMENDMENT 002 - ANSWER TO THE REQUEST RECEIVED

14. A request is made to extent the subject RFP closing date to Friday, November 6, 2015.

Answer:

At this point in time, such extension request is refused. The RFP closing date therefore remains Thursday, September 24, 2015 at 2:00pm, EDT.

As per section 1.2 b) of the RFP, Canada's requirement is for the SRA solution to be delivered on or before **November 30, 2016**. This firm delivery date is to enable Canada to meet other key operational milestones of the Ground Segment development portion of Canada's RADARSAT Constellation Mission (RCM) which is scheduled for launch in July 2018.

Consequently, there is very little to no schedule margin available on this project. This is the reason why Canada is not ready to entertain an extension request at this stage.

*****END OF AMENDMENT 002*****
