

## **Collins Bay Institution Construction of Loading Dock and Tunnel Repairs**

### **Question and Answers**

Q8. Can you please confirm that the only access to the tunnel repair area is from the main entrance of the institution? If this is the only point of access, approximately how far from the main entrance is it to the work area?

A8. There is another entrance, it would require that the contractor supply lifting equipment and coordinate with the institution as it is an inmate occupied area. From the main entrance to the work area is approximately 270m.

Q9. Will a staging/laydown area be provided outside the entrance for stockpiled materials, garbage/concrete waste dumpster etc.

A9. Yes, a staging/laydown area will be provided at the areas close to Collins Bay front entrance.

Q10. Where will workers be permitted to park?

A10. Workers should park in the main parking lot, east of the Collin Bay Institution.

Q11. Do workers require security clearance?

A11. Yes, the workers require security clearance. CPIC forms are to be submitted with official ID for all workers (for example, a copy of drivers' licenses) by the successful bidder after tender closing.

Q12. Will a staging/laydown area be provided at the loading dock for stockpiled materials, garbage/concrete waste dumpster etc.

A12. Yes, a staging/laydown areas will be provided.

Q13. Will consideration be given to extend the closing date?

A13. No extension to the closing date will be considered.
