

**RFP 87055-15-0084**  
**For Service and maintenance of Onguard/Lenel System and CCVE System**  
**Amendment to RFP**

This amendment is raised to confirm that the Basis of Selection will be: Highest Combined Rating of Technical Merit 80 % and Price 20 % (A0027T – 2012-07-16)

1. To be declared responsive, a bid must:
  - a. comply with all the requirements of the bid solicitation; and
  - b. meet all mandatory criteria; and
  - c. obtain the required minimum of 28 points overall for the technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 40 points.
2. Bids not meeting any of the requirements set out above in subsection 1 will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 80 percent for the technical merit and 20 percent for the price.
4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 80 percent.
5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 20 percent.
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.
