Amendment 001 was raised to make the following changes and provide the following answers to questions.

DELETE THE FOLLOWING:

Solicitation Closes – L'invitation prend fin		
At / à :	2:00 PM	MDT (Mountain Daylight Time) HAR (heure avancée de Rocheuses)
On / le :	Wednesday, September 23rd, 2015	

INSERT THE FOLLOWING:

Solicitation Closes – L'invitation prend fin		
At / à :	2:00 PM	MDT (Mountain Daylight Time) HAR (heure avancée de Rocheuses)
On / le :	Friday, October 2nd, 2015	

DELETE THE FOLLOWING under Part 3 – Bid Preparation Instructions:

5) Company Information

- 5.1 A letter(s) from the OEM(s) (Original Equipment Manufacturer) of the equipment detailed below, (see Annex A, Statement of Work) must be submitted with the bid by the bid solicitation closing date.

If there is more than one OEM, letters are required from each OEM.

- Fire Alarm Control Unit

The letter must confirm that the Bidder:

1. is the Original Equipment Manufacturer (OEM); **OR**
2. is an authorized service agent of the Original Equipment Manufacturer; **OR**
3. has a valid sub-contracting agreement with the OEM; **AND**
4. has access to the following in order to, service and maintain the components, sub-systems, systems and integrated systems identified above and within the attached inventory, Annex A, Statement of Work:
 - 4.1 Service and maintenance tools and materials;
 - 4.2 Compatible parts;
 - 4.3 Software;
 - 4.4 Hardware;
 - 4.5 Firmware; **AND**

5. has access to the complete operational and adjustment procedures of the OEM for all components, sub-systems, systems, integrated systems and related equipment identified within the attached inventory. This includes direct access to manufacturer's technical support services and service bulletins.

AND/OR

- 5.2 Should the Bidder not be the OEM or the authorized service agent of the OEM(s) or not have a valid sub-contracting agreement with the OEM for the above equipment, a letter(s) from the authorized service agent of the OEM(s) of this equipment should be submitted with the bid by the bid solicitation closing date. However, if the following is not submitted with the bid by the bid solicitation closing date, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

If there is more than one OEM, letters are required from each authorized service agent of each OEM.

- Fire Alarm Control Unit

The letter must confirm that the Bidder:

1. has a valid sub-contracting agreement with the authorized service agent; **OR**
2. has access to the following in order to, service and maintain the components, sub-systems, systems and integrated systems identified above and within the attached inventory, Annex A, Statement of Work:
 - 2.1 Service and maintenance tools and materials;
 - 2.2 Compatible parts;
 - 2.3 Software;
 - 2.4 Hardware;
 - 2.5 Firmware; **AND**
3. has access to the complete operational and adjustment procedures of the OEM for all components, sub-systems, systems, integrated systems and related equipment identified within the attached inventory. This includes direct access to manufacturer's technical support services and service bulletins.

The Bidder must also submit a letter(s) issued to the authorized service agent(s) by the OEM(s) confirming the name of the authorized service agent(s).

6. Employee Training

Valid copies of the following training certificates/cards should be submitted for each proposed service personnel with the bid by the bid solicitation closing date.

All certificates are to be recognized by the Human Resources Skills Development Canada (HRSDC) – Labour Canada and/or Workplace Safety & Insurance Board (WSIB) and/or Construction Safety Association of Alberta (CSAA) and/or any other recognized legislative or regulatory body in the Province or territory in which the work is to be performed.

- a valid Fall Protection Safety Training certificate/wallet card
- a valid Work Hazardous Material Inventory System (WHMIS) certificate/wallet card
- a valid Confined Space Entry certificate/wallet card

- a valid First Aid/CPR certificate recognized by Human Resources and Skills Development Canada http://www.hrsdc.gc.ca/eng/labour/health_safety/prevention/first_aid.shtml
- a valid Asbestos Work Practices Awareness Certificate/wallet card
- a valid Arc Flash Training Certificate/ wallet card

INSERT THE FOLLOWING under Part 3 – Bid Preparation Instructions:

5) Company Information

- 5.1 The company must be ULC Certified, the contractors performing the work must have the required certifications in the province of Alberta to test, inspect and perform maintenance on Fire Alarm, Sprinkler systems and devices including fire extinguishers. **Proof of ULC Certification must be provided at time of bid.**

6) Employee Training

Valid copies of the following training certificates/cards should be submitted for each proposed service personnel with the bid by the bid solicitation closing date.

All certificates are to be recognized by the Human Resources Skills Development Canada (HRSDC) – Labour Canada and/or Workplace Safety & Insurance Board (WSIB) and/or Construction Safety Association of Alberta (CSAA) and/or any other recognized legislative or regulatory body in the Province or territory in which the work is to be performed.

- a valid Fall Protection Safety Training certificate/wallet card
- a valid Work Hazardous Material Inventory System (WHMIS) certificate/wallet card

M2: Submission of Evidence as described in Section I 3. Mandatory Employee Experience and Past Performance			
M3: Valid copies of the following cards and licensing documentation as described in Section I 4. Card and Licensing Documentation			
M4: Proof of ULC certification, for both Fire Alarm and Sprinkler Systems, as per Section I 5. Company Information			
M5: Valid copies of the following training certificates / cards as described in Section I 6. Employee Training			

RESPONSES TO QUESTIONS:

Question 1:

When do you anticipate the contract will start?

Answer:

Start date will be provided at the time of contract award.

Question 2:

As noted in point iv. On page 5, ULC Certification is required. Is this regarding Fire Alarm Monitoring or Actual Emergency Response Times for Fire Alarm and Sprinkler Systems?

Answer:

The Fire Alarm Monitoring is under a different contract, so this requirement specifically applies to the Fire Alarm and Sprinkler System response times.

Question 3:

As noted in point #4, page 10 regarding Card and Licensing Documentation, it requests ULC certification for all service personal, including Fire Alarm Technicians, Sprinkler Fitters and Electricians. If all service personnel have the required Certifications in the Province of AB to test and inspect Fire Alarm and Sprinkler systems, is ULC certification still a requirement?

Answer:

The company must be ULC Certified, the contractors performing the work must have the required certifications in the province of Alberta to test, inspect and perform maintenance on Fire Alarm, Sprinkler systems and devices including fire extinguishers.

Question 4:

As noted in point #5.1 on page 11, there's a requirement for letters from the OEM's confirming the service provider is an authorized service agent, this will be difficult given the amount of different manufacturers according to the site inventory. Will a letter from the service provider outlining our certifications and explaining any OEM partnerships suffice for this purpose?

Answer:

This requirement has been removed from the solicitation.

Question 5:

Can past inspection reports be made available for each of the detachments included in this RFP?

Answer:

Yes, please see attached documents to this solicitation.

Question 6:

Can we remove the required letter from the OEM on 5) 5.1 as it may be difficult for a contractor to receive a letter like that from their competitors?

Answer:

Yes, please refer to Amendment 001.

Question 7:

What do you mean by label on each device?

Answer:

As stated on 1.6.1.7) each device is to be identified by zone and component numbers. Numbers will be printed on sticker type identification labels which will be attached to each and every component existing in the system.

Question 8:

Can you provide clarification on what you mean by ULC Inspection for employee training

Answer:

Removed from solicitation.

Question 9:

For the fire alarm technician, the certification requirement asks for a CFAA designation. Our fire alarm technician has been inspecting fire alarm systems for over 20 years (including the RCMP detachments and provincial/federal buildings), he has what is known and accepted in the industry as a "P" ticket obtained through NAIT. We were never required to have the CFAA certification when performing the RCMP inspections in the past (including last year), is this a new mandatory requirement?

Answer:

Yes it is a new requirement.

Question 10:

A sub-contractor can be used as long as they have the appropriate certification and security clearances correct?

Answer:

Yes, that is correct.

End<<<FIN>>>
