This **amendment # 002** is raised to respond to bidder's questions for **Solicitation # H3551-150741/A** as follows:

QUESTION 1:

In the Tender you mention pricing must include shipping and offloading charges, FOB Destination, does the contractor has to deliver to final room location also or dock to dock would be sufficient?

RESPONSE 1:

Pricing includes all shipping, offloading charges, and the successful bidder must deliver all units to final room locations.

QUESTION 2:

In Annex A – Requirement - Compliance Matrix Section 1 General Performance Specifications on Page 11 – Section 1.3 - Would you be able to confirm the number of chambers required for each blanket warmer. Single, double or triple chambers?

RESPONSE 2:

The number of chambers required is single with three (3) shelves as the unit is intended ONLY as a blanket warmer.

QUESTION 3:

In Annex A – Requirement – Compliance Matrix Section 4 Miscellaneous on Page 12 – section 4.1 Supplier must label all Crown owned equipment as being "Property of Canada". Labels will be provided by Health Canada after contract award. Our question – if we are to open the boxes and label this equipment prior to shipping this may compromise the packaging protection for the equipment prior to shipping? Please advise if this is acceptable?

RESPONSE 3:

The successful bidder does not need to open boxes to adhere labels (note: asset stickers and Property of Health Canada labels will be sent by mail to the Nursing Station for them to affix).

Annex A, Requirement

1. Refer to page 10 of 12, **Compliance Matrix**

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME

ANNEX "A"

REQUIREMENT

Health Canada has a requirement for the supply and delivery of twenty-four (24) Medical Warming Cabinets (Blanket Warmers) for twenty-two (22) Nursing Stations and two (2) Federal Hospitals in remote and isolated communities across Manitoba.

The Medical Warming Cabinets (Blanket Warmers) shall be used by experienced and qualified health care providers in the Nursing Stations and Federal Hospitals.

A complete list of the mandatory performance specifications are detailed below in the Compliance Matrix.

DELIVERY

The delivery of each unit to twenty-four (24), difficult to access, remote locations is to be fully coordinated by the Bidder working with the shipping companies.

Delivery dates will have to be arranged by the contractor in conjunction with dates the airlines fly into the community or Gardewine truck.

Air transportation (regular or cargo) or Gardewine trucking (when possible) is preferred. Winter roads are not reliable as transport companies that provide this service will only deliver the goods as part of a full truck. This can lead to considerable delays or failures to get the deliveries all together. As these units are no larger than a regular size fridge or large stretcher they should be able to be transported by air.

All deliveries must take place prior to March 31, 2016.

COMPLIANCE MATRIX – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS

A complete list of the mandatory performance specifications are detailed in the Compliance Matrix.

1. Bidders **must** show compliance by addressing each Performance Specification in the Compliance Matrix, by indicating how each specification is met.
2. Bidders are to clearly demonstrate compliance with the mandatory performance specifications. Bidders MUST respond with complete specifications and/or descriptive literature of the equipment being offered.
3. The complete specifications and/or descriptive literature should be submitted with the proposal. If the complete specification and/or literature is not submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.
4. Canada will not evaluate information such as references to Web site addresses where additional information can be found, or technical manuals or brochures not submitted with the bid.
5. Bidders must address any concerns with the Performance Specifications in written detail to the Contracting Authority before bid closing as outlined in the Request for Proposal (RFP) document.
6. Failure to meet the minimum mandatory performance specifications will result in your proposal being deemed non-responsive, and be given no further consideration in the evaluation process.

Compliance Matrix – MINIMUM MANDATORY PERFORMANCE SPECIFICATIONS:

	<p><u>Completion and submission of Mandatory Performance Specification is required to be considered responsive and for your bid to be given further consideration.</u></p> <p>a. Bidders must cross reference where in their technical bid, the technical specification is located.</p> <p>b. Provide the specification being offered which meets or exceeds <u>and cross-reference as to where the supporting documentation is found within your proposal</u>. If there is insufficient space in the table, assign SIR # (Supplementary Information Reference) and provide the appropriate details on a separate page in your proposal. Where published supporting documentation is not available in the form of brochures, technical data sheets etc., mark in the table "certification by signature"</p>	
	<p><u>All work and materials herein specified must meet and maintain minimum Canadian and Provincial certification(s) and approval(s) as applicable by Industry Standards.</u></p>	
Item		Bidder Response: address how each specification is met; cross-reference where this technical specification is indicated in their bid documentation (see instructions a. and b. above)
1	GENERAL PERFORMANCE SPECIFICATIONS
