Amendment #1 is issued to answer a potential bidders question.

Questions:

1. 3.4.1 (a) SAE Net Rated Power – You asked for 157 kW. Our machine in this category size is 152 kW. Our drivetrain is a Hydrostatic drive which eliminates the need for a Transmission and torque converter combination which requires more horsepower to achieve similar performance as a hydrostatic machine. Hydrostatic provide a more direct transfer of power to the ground using less componentry.
2. 3.5 (a) (vii) Blade Angle you asked for a minimum of 25 degree to the left and right. We can provide a maximum angle of 23.8 degrees left and right. Would this be acceptable to DND?

Answer:

All major Bulldozer manufacturers have models that can meet these specifications. Canada will not consider changing these requirements.

All other terms and conditions remain the same.
