

Amendment to Solicitation# 1000170112 and 1000170113

To All Bidders:

Please be advised that the Department has been asked for clarification relative to the above-mentioned Solicitations and we would like to submit the following information to all prospective bidders to assist in the formulation of bid packages:

Question:

We note that you require a lead engineer registered to practice in Manitoba. As the services requested also involve groundwater concerns, we wondered if you will also accept geologists in this role? Geologists are included in the professions registered by APEGM.

Answer:

Yes a Geologist registered with Association of Professional Engineers and Geologists of Manitoba (APEGM) would be eligible as the "lead engineer".

As such, please note that all references to "lead engineer" within the Solicitation document, specifically within the Mandatory and Point Rated Technical Criteria, and Basis of Payment would apply to "lead engineer or geologist".
