Amendment # 2 to the Request for Proposal (RFP) 23375-160220/B which closes on October 05, 2015 at 2:00 PM is raised to:

Provide answers to questions received from Bidders.

Q1. Will you be also evaluating solutions based on FRP(Fiberglass Reinforced Plastic) & Dual Laminate tanks ?

A1. In order for the tanks to be evaluated using different materials than those stated in the solicitation, the bidder must provide enough detail on the materials used for the technical authority to determine its suitability/compatibility with the produced water.

Q2. Can you please let us know exactly what the corrosive compound mentioned is?

A2. The nature of the produced water to be stored in the tanks is confidential; as such CanmetENERGY cannot share detailed information with the bidders. The materials stated in the solicitation have already been deemed acceptable, the bidders may suggest other materials if they wish but do so with the risk of having the materials rejected with minimal explanation as to the nature of the incompatibility.

**All other terms and conditions of the Request for Proposal remain unchanged.**
