The following addresses questions from interested parties to this invitation and provides clarification.

1. Clarifications, Questions and Answers

- Q1. Based on the security clearance requirement mentioned in Section F of the RFI, if there are already employees at the responding firm that hold appropriate security clearances, do the responding firms need to obtain additional project-specific security clearance for this specific opportunity? Or are the current clearances sufficient should it become qualified to submit a response to the RFQ?
- A1. If this Invitation results in a future RFP, the Responding Party(ies) will have to hold a valid security clearance at the "Reliability" level, approved and granted by the Canadian Industrial Security Directorate (CISD) of PWGSC prior to award. For clarity, the security clearance referenced herein is not project specific.
- Q2. Please confirm if responding firms are required to register in order to submit responses to this specific RFI. If so, please provide guidance on how to do so.
- A2. There is no registration process for submitting a response. Any and all parties interested in submitting a response to this Invitation shall submit the same in writing to PWGSC in accordance with the Invitation to Submit a Response.
