Description of the requirement:

Elections Canada requires the professional services of a Business Intelligence Architect to assist with an agency-wide information management and business intelligence solution. The initiative will report on the status of several operational systems, such as the National Register of Electors (E-Registration) and Alternative Voting Methods. The initiative will also integrate data from several operational systems for analysis, with the aim of detecting, during an electoral event, trending issues that the agency should be alerted to and may need to intervene in. The Electoral Integrity Project Coordination Office (EIPCO) will be a primary contributor to requirements in this area. Finally, the Business Intelligence Architect will provide recommendations for future considerations regarding Elections Canada's digital strategy as it relates to business intelligence.

Proposed period of contract:

The proposed period of contract shall be from award of a contract for a period starting November 2nd, 2015 to November 1st, 2016 with an option to extend the term of the Contract by up to **two (2) additional one (1) year periods**, under the same terms and conditions.
