QUESTIONS AND ANSWERS – SET 2

Question 4:

Could the Senate identify which items will be provided to which service? E.g.: Transportation services receive items 1a and 1b in the provided list, and maintenance receives the items 6a and 6b.

Answer 4:

The Senate is unable to link specific clothing items to individual sectors, as the entire list will be available to the entirety of the employees working in the 6 identified sectors. The Senate encourages Bidders to submit clothing uniforms that could be used no matter the employee's task or role.
