

SEN-011 15/16

QUESTIONS AND ANSWERS – SET 3

Question 5:

For the painters shirts, is the Senate looking for pricing on a white button down long sleeve shirt, or a white golf shirt?

Answer 5:

The Senate will accept both a White Golf Shirt, and a White button-down short-sleeve shirt as a valid submission for a Painter's Shirt.

Question 6:

In some cases, if I don't have a supplier for a garment that meets the minimum % requirement in a certain fabric (ex cotton), or the sizes requested (ex 4XL). Am I still allowed to quote on what my closest item might be (I would specify the % breakdown in my quote)?

Answer 6:

The size ranges stated within the RFP represent the current and future operational needs of the Senate. The minimum % requirement for item composition and breakdown are specifications that have been approved by the Senate and will not be changed at this time. Unfortunately, a submission which does not meet the stated size ranges and minimum % requirement for the items listed would not be compliant.

Question 7:

For the winter coat bomber (29a/b, 30 a/b), does it have to be a single layer insulated jacket or can it be a 3 in 1 style bomber jacket?

Answer 7:

The Senate will accept a 3 in 1 style bomber jacket for the Winter Coat Bomber (items 29a,b and 30a,b).
