### **Questions (Q) from the Industry and Answers (A)**

1) **Q:** Annex A to the RFP states: "The Contractor will utilize recognized, valid statistical sampling methodology to determine the number of domestic, trans-border and international files to be audited that will provide Canada with a statistically valid audit, ensuring a high degree of accuracy"....."The audit sample size should be sufficient to produce a 95% confidence level with not more than +/- 2% error".

In addition, Annex B to the RFP requests a cost per PNR to estimate the cost of the audit, which would lead us to conclude that you are requesting that the entire sample size in PNRs be audited.

Can the Crown please clarify if the audit sample will be determined by the successful bidder or whether it is expected that the bidder test the entire sample size as detailed in Annex B?

**A:** *The audit sample size in PNR's is only an estimate based on an average monthly historical volumes of transactions and is to be used for bid evaluation purposes only. Canada requires that a valid sampling methodology be used to produce a statistically valid audit sufficient to produce a 95% confidence level. The sample size will therefore be determined by the bidder, in collaboration with Canada.*

2) **Q:** Is the GDS used by HRG Sabre or do they use a different GDS for your reservations?

**A:** *HRG uses Apollo for the Government solution.*
