The solicitation is extended to November 13, 2015.

QUESTIONS AND ANSWERS

Question no. 1: Are there any other markings on the outside of the card that need to be priced? (For example a laser engraved serial number which is tied to the chip ID, Magnetic stripe, Security hologram or embedded infrared/UV barcode, etc).

Answer no. 1: There are no additional markings besides the manufacturer serial number on the card. As stated in the SOW, the back of the card printing can be moved to accommodate the chip and vendor serial number. This is not a DND-specific numbering, but a way to identify the physical card.

Question no. 2: Is there an incumbent manufacture of smartcards?

Answer no. 2: There is an existing smart card that is being replaced with the requirements for the new technology. The current smart card cannot support all of the technical specifications that are required.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
