AMENDMENT 01

The purpose of this amendment is to modify the solicitation document and to publish Questions and Answers regarding the Request for Proposal.

DELETE:

4.2.1 Highest Combined Rating of Technical Merit and Price

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. obtain the maximum number of points overall for the technical evaluation criteria which are subject to point rating.
The rating is performed on a scale of 130.

Annex B – Basis of Payment

INSERT:

4.2.1 Highest Combined Rating of Technical Merit and Price

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the bid solicitation; and
 - b. meet all mandatory criteria; and
 - c. if possible, respond to all technical evaluation criteria. There is no minimum score under the rated evaluation criteria for a bid to be declared responsive.
The rating is performed on a scale of 130.

Annex B – Basis of Payment (amended)

Questions and Answers

Q1: This project requires a shelter to be constructed and installed onsite. Can you clarify if there any building requirements, or special instructions in regards to construction and installation at the site?

A1: The requirement for the shelter is that it must protect all sensitive electronics housed inside (e.g., computer equipment, etc.) from environmental factors such as rain, snow, frost, wind gusts, cold temperatures, etc. This will permit operation of the wind profiler radar during all weather conditions experienced in the Arctic. The shelter must be accessible to an operator. The shelter is to be built next to the wind profiler radar on the Arctic tundra (permafrost).

All other terms and conditions remain unchanged.

ANNEX "B"

BASIS OF PAYMENT (amended)

All prices proposed in this Basis of Payment will be evaluated and will take part in the decision process for contract award.

1. Baseline

Item #	Description	Price
1	One (1) securable wind profiler radar system compliant with the specifications mentioned in the Contract, including a user guide and maintenance procedures	\$ _____
2	Assembly and installation of the system on site	\$ _____
3	On-site acceptance tests	\$ _____
4	Transportation and delivery *	\$ _____
5	On-site training (including required documentation)	\$ _____
6	Warranty (12 months after delivery and acceptance of the work)	INCLUDED
TOTAL (taxes excluded)		\$ _____

Delivery:

Environment Canada Weather Station
FSB Weather Office
Iqaluit, Nunavut

* Note: Shipping materials to Iqaluit via sealift can take 1-2 months (or more) depending on weather.

2. Optional radar features

Item #	Description	Price ** (taxes excluded)
1	Wind profile vertical resolution less than 250 m.	\$ _____
2	Antennae beam should be capable of pointing in more than 5 directions.	\$ _____
3	Peak transmitter power.	\$ _____
4	Extended weatherproofing to protect the system at temperatures below -40°C	\$ _____
TOTAL (taxes excluded)		\$ _____

** If no price is indicated in a cell in Table 2, we will consider that the option is not offered by the supplier.
If \$0 is indicated, we will consider that the option is offered by the supplier at no additional cost.

TOTAL PRICE (1+2) (taxes excluded)	\$ _____
