A. Questions from potential Bidders:

Q1 Will those mobile and portable radios will be integrated in an existing network?

A1 Yes, these mobile and portable radios will be integrated to an existing DMR Tier II/III third party system.

Q2 If so, can you please then indicate the model number and manufacture?

A2 The existing system is using the Hytera HT982S.

Q3 In the general specifications for both mobile and portable radios, it is indicated the radios have to operate with AES 256; the encryption is made for P25 mode and not DMR. Please clarify.

A3 The CBSA, including other Federal Departments and Agencies such as RCMP and DND, require AES 256 level encryption to communication classified information via voice and data. AES 256 encryption is not limited to P25 radio communication systems.

Q4 For DMR Tier 3, would this specification need to be mandatory at the time of the contract award or the radios can be upgraded to Tier 3 later in the same year?

A4 The specification must to be met at the RFP closing date.

Q5 Would it be possible to have an extension for answering the RFP?

A5 Please see the Amendment section of this Amendment 2.
