**TITLE : CYBER SECURITY OF AUTOMOTIVE SYSTEMS
AMENDMENT 007**

Included in the present amendment :

- Question and answer 14

Question 14

As the Vehicle cannot leave the premises of DRDC in Quebec, we would like to assess the feasibility of getting another IDENTICAL vehicle to do our research (w/o the need of traveling continuously to Quebec). Therefore, we have the following questions:

- (a) Is the Vehicle a "custom made" vehicle for DRDC which is not commercially available?
- (b) If the vehicle is commercially available, then does DRDC have any objection (technical OR policy based) if we locally (in Halifax) source the same vehicle for our R&D? This sourcing can take the form of (but not limited to) renting, leasing or financing the vehicle locally from a dealer.

Answer: The Contract includes a task authorization portion for which the types and vehicle models are not known. There is therefore no guarantee that the Contractor will always have access to equivalent vehicles. Even if all vehicles were commercially available, the solution proposed would not be economically viable. We therefore cannot accept this proposition.

***** All the other clauses and conditions remain unchanged *****
