AMENDMENT 002

MOBILE STORAGE SHELVING – EB144-160072/B

This amendment is issued in response to the following bidder question.

1. Does the job really require 3 separate installations, and if so, please be specific of the expectation? Is there flexibility to do it in one timeline?

Answer: The least would be two installations. The problem is the storage area is full to capacity. So the intent was to move the file boxes to another offsite location. But that space will probably only hold about half the files at Sparr Road. The contractor would install at least half of the new shelving. Then CIC would put the remaining file boxes left at Sparr Road on the newly installed shelves. Then the next installation of shelving would be installed and the files that were moved off site would be moved back to Sparr Road to be put on the last installed shelving. This way CIC only have to move the file boxes off site once. There are also some miscellaneous items that can be stored in a container that is located outside the warehouse. It is important to note that the container cannot be used for storage of files.

All other terms and conditions remain unchanged.
