## Description of the work:

The Canada School of Public Service requires to acquire a system administrator that is specialized in SAML or SAML2-based single sign on technologies to assist in architecting the single sign on solution used for the e-school project and enhance the existing architecture. Furthermore, the resource is expected to configure and optimize the existing SSO configurations, create plans for integrating into different platforms and configuring adding the SSO to a federation, developing custom modules, and optimizing the single sign on for a government-wide user base (up to 300,000 public servants), make recommendations on best practices, provide advice and guidance on SAML and SSO-specific issues and perform a knowledge transfer.

- *Bidders must submit a bid for all resource categories;*
- *The work is currently not being performed by a contracted resource.*

**Security Requirement:** *Common PS SRCL #06 applies*  
**Minimum Corporate Security Required:** *Enhanced Reliability*  
**Minimum Resource Security Required:** *Enhanced Reliability*

## Contract Authority
