Amendment 003 is raised to:

1. Address the below noted questions.
2. Extend the closing date to **November 17, 2015**

Q: Please confirm with Citadel Hill Management - Is there a location close enough to the fort where a crane could lift equipment over the walls?

A: The only locations are the Perimeter Road (much too far) and the ditch.

Access to the ditch is limited by the parking ramp which is rated at 18, available turning radii and the bearing capacity of the sodded surface of the ditch. Any damage would have to be repaired at the cost of the Contractor.

Q: Please confirm with Citadel Hill Management – How exactly did inspectors access the upper sections of mast for inspect?

A: The inspectors typically climbed the mast with harnesses. There was/is a fall arrest cable on the mast. When the mast was being painted it was scaffold and therefore allowed more direct access to the lower mast

Q: Please confirm with Citadel Management – How exactly was the upper 50' mast section and Crow's Nest removed or lowered?

A: The upper mast, upper yard and Crow's Nest were lowered to the ground using slings, rope and pulleys.

Q: Is it permissible to remove existing mast by cutting it down or must it be lowered in one piece?

A: The upper mast may be removed in any manner that is safe.
