**QUESTIONS and ANSWERS**

**1. Question from Bidder:**

I want to know where exactly the mandate will be realized. Is it in Kégaska?

**DFO Answer 01:**

At the end of the project, the stone must be stored in Kégaska, within 3 km from the fishing harbour.

**2. Question from Bidder:**

I also want to know if we need to perform the blasting operations or if the stone will be taken in an existing blown quarry.

**DFO Answer 02:**

It is not for the department to respond to this question. At the end of the project, the Contractor must demonstrate that the stone meets the criteria listed in the specifications.

**All other Terms and Conditions for this requirement remain unchanged.**
