Amendment no. 06 to the solicitation is issue to answer to a question and extend the solicitation period.

The solicitation is extended to November 20, 2015. Please note that this is the final extension, no further extensions will be considered.

QUESTIONS AND ANSWERS

Question no.15: Is there a preference for the make up of the card:

- a. Laser engraveable PET, government grade substrate, printed 4/1 to meet ISO 10373 & ISO 7810-ID1
- b. PVC with Ink Jet serialization, color printed 4/1 to meet ISO 10373 & ISO 7810-ID1

Answer no. 15: The preference would be for PVC with Ink Jet serialization (option b).

For your information, the durability of this option is less than for the Laser option which reduces the lifespan of the card. However, given the turn over rate of the card by users and the forecast, we believe the cost savings of having a less durable card are more important than extending the life of an individual card. There are cases in which we would prefer the first option, but for just a network access card, this will be sufficient and a cheaper option for the government.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
