C. Questions and Answers:

Q9:

In M.3a page 21 of 41 – it is requested that Suppliers “must provide 3 IT projects successfully completed...” and further in M.3f, it is indicated that the 3 projects “must have been completed within the last 3 years prior to RFSA closing date. The end date of the project must fall within the 3 year period” From the above, we assume that the project may have started prior to the 3 year timeframe as long as it was completed within the 3 year timeframe.

Therefore we assume that a long term project started in January 2010 and completed in March 2013 is compliant and can be submitted as it was completed within the 3 year timeframe. Can you please confirm our assumption?

A9:

Correct. Canada will accept projects that started prior to the 3 year timeframe as long as it was completed within the last 3 years from the RFSA closing date.

Q10:

In M.3i Project Value, page 22 of 41: “... The total project value is the total amount invoiced by your company to provide the solution.” We are assuming that the value is for the overall project, not only for the portion that falls within the past 3 years. Per our example above of a project that started in January 2010 and was completed in March 2013, the total value to the company would be all that was billed for the project from start to completion. Can you please confirm our assumption?

A10:

Correct. In the specific example provided, Canada will accept the total project costs from start to completion, assuming those services were fully invoiced.

Q11:

We understand that Canada is asking for 3 projects to be submitted, not 3 contracts. Therefore if we have worked on a project for which we were awarded 2 or more contracts – but the project was the same and multiple team members worked on the project via different contracts, this project is compliant as long as we can demonstrate that all the contracts were in support of a single project. Can you please confirm our assumption?

A11:

The definition of a "Project" is clearly outlined in the Key Terms, of article 1.2.7, where it describes a Project as "a contract...", referring to a single contract.

In conjunction with the above, Suppliers should also consult article 1.2.2 for a definition of a SBIPS solutions (project).

ALL OTHER TERMS AND CONDITIONS OF THE RFSA REMAIN UNCHANGED.
