

amendment 001

1. Will there be any classified work on the contract? (no, not expected)
2. The firm lot prices states not to exceed \$35,000, is that the maximum total value anticipated? (Yes, as we are only looking at a short term run to the end of the current fiscal year, we may look to do a similar contract for following years if we have resources and the work proves valuable)
3. Will the work be done at NEB or on contractor site? (Contractor would not be required onsite, email/phone communication only.)
