This amendment is raised to answer questions, issue an autocad version of Annex A-3 and to extend the closing date of the solicitation.

- 1- Extend the closing date

At: Page 1 of the RFSO

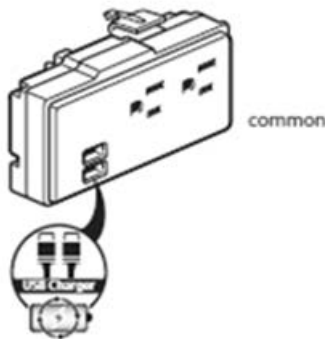

delete: Solicitation closes 2015-11-20 at 2:00pm

Insert: Solicitation closes 2015-11-27 at 2:00pm

- 2- Questions and Answers

Q28. Annex A 8.2.2.3 Will the following receptacle be acceptable?

**15 Amp Duplex Receptacle
with USB Charging Outlet**

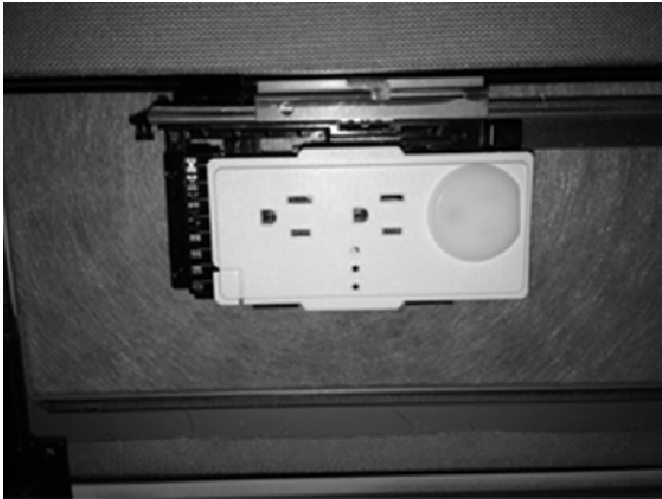

A28. **No, this proposed option is not to be found acceptable by PWGSC and The Department of National Defense.**

With regard to the USB chargers, there are two concerns.

- 1. USB chargers consume power even when not in use; and**
- 2. The power consumption, though very low, is accumulative across all receptacles in all workstations. This will have both a financial cost to the Crown and environmental impact.**

Additional technical specifications would be required to be written for the USB outlets ensuring the quality, electrical currents and compatibility with Government devices. This process would disrupt the tendering process and risk not meeting the overall project schedule.

Q29. Annex A 8.2.2.3 Will the following receptacle be acceptable?

Note: the outlet disabler shown in the photo is non-removable.

Both the proposed solutions are based on standard UL, CUL approved manufactured products. The USB solution is feed internally from the receptacle and is only 5 volt DC at 2 Amp shared. The other proposed solution is exactly the equivalent of a duplex outlet offering only 6 plug in points per station (3 duplex) as per the specification with no additional loading. This option fully meets spec.

- A29. **No, this proposed option is not to be found acceptable by PWGSC and The Department of National Defense. The solution is not a commonly used product which will have future impact on maintenance and replacement of the receptacles.**

3- Autocad Version of Annex A-3

Delete: Annex A-3.pdf

Insert: ANNEX A_3 CAD floorplan.zip

(see attached document)

There are differences between the PDF and the Autocad document, the Autocad takes precedence.
