Amendment #1 is issued to answer a potential bidders questions.

Question:

Item# 3.4.1. (a) Net Rated Horsepower. You ask for 157 kW (210 HP Net). The machine we are offering is 152 kW (205 HP Net). Difference of 5 hp net on a machine with 344 kN of Drawbar Pull. Would DND consider making an adjustment to the minimum allowable horsepower to include our machine as an acceptable horsepower of 205 hp net. If you consider our machine uses a hydrostatic drive line using variable displacement piston pumps and motors, horsepower is not lost as you would find in a machine that uses a transmission and torque converter arrangement for the driveline. Power is further managed using a load sensing system as conditions change speed and power is matched to changing load conditions.

Item# 3.5 (a) (vii) Blade Angle. You ask for 25 deg blade angle. Our design allows for 23.8 degrees of angle. A difference of 1.2 deg. Would DND Consider allowing 23.8 deg as a minimum angle requirement?

Answer:

All major Bulldozer manufacturers have models that can meet these specifications. Canada will not consider changing these requirements.

All other terms and conditions remain the same.
