TITLE: *Multiple National Master Standing Offers (NMSOs) for Commercial Satellite Imagery Products or Data*

The purpose of this amendment is to amend the solicitation document as detailed below, and to respond to questions received by bidders.

1. At “THIS IS A REFRESH OF STANDING OFFERS E60SQ-120001/XXX/XX”, page 5 of the solicitation document:

DELETE: “If no Offer is received from an existing NMSO Holder by the closing date and time of this solicitation, the NMSO will be revised to incorporate the latest prices (up to March 31, 2015) for the following year.”

INSERT: “If no Offer is received from an existing NMSO Holder by the closing date and time of this solicitation, the NMSO will be revised to incorporate the latest prices (up to **March 31, 2016**) for the following year.”

2. QUESTIONS AND ANSWERS:

Q1. We are considering updating some of the pricing to our products on our NMSO. We would not be adding or removing products, only modifying the pricing to existing NMSO products. How do we go about doing this? Do we need to resubmit a completely new Offer, complete the entirety of Section II: Financial Offer, or can we simply provide PWGSC an updated version of “rfso_pricing_file_attachment_3_to_part_3_english.xls”?

A1. If there are no changes to the products offered, Section I: Technical Offer is not required. Updates to pricing can be submitted by either submitting updated Annex B Basis of Payment from the existing Standing Offer, or by submitting an updated version of the RFSO pricing file, in the same format as the original submission. In their submission, Offerors are also requested to identify the applicable Standard Instructions in their Offer, as detailed on page 12 of the solicitation document. If there are any changes to Sections III and IV of the original offer submission, those sections will need to be re-submitted.

Q2. We request clarification on the specific submittal requirements to add new product options via a refresh of an existing NMSO. What specific documentation does the Government require from existing NMSO holders for an acceptable refresh submittal? For example, may we provide a technical summary with associated pricing in a stand-alone format?

A2. Any changes to existing products will require revised Section I: Technical Offer and Section II: Financial Offer, with the changes summarized and highlighted within the documents. The updated products will be evaluated in accordance with the technical and financial evaluation criteria for additional products. The Offerors are also requested to submit updated Section IV: Additional Information of the original submission, and, if applicable, updated Section III: Certifications. In their submission, Offerors are also requested to identify the applicable Standard Instructions in their Offer, as detailed on page 12 of the solicitation document.

THERE ARE NO OTHER CHANGES TO THE SOLICITATION
