- (a) The Contractor must, at the Contractor's expense, obtain and maintain insurance contracts in accordance with the requirements of the Certificate of Insurance. Coverage must be placed with an Insurer licensed to carry out business in Canada.
- (b) Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract. The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

2. Period of Insurance

- (a) The policies required in the Certificate of Insurance must be in force from the date of contract award and be maintained throughout the duration of the Contract.
- (b) The Contractor must be responsible to provide and maintain coverage for Products/Completed Operations hazards on its Commercial General Liability insurance policy, for a period of six (6) years beyond the date of the Certificate of Substantial Performance.

3. Proof of Insurance

- (a) Before commencement of the Work, and no later than thirty (30) days after acceptance of its bid, the Contractor must deposit with Canada a Certificate of Insurance on the form attached herein.
- (b) Upon request by Canada, the Contractor must provide originals or certified true copies of all contracts of insurance maintained by the Contractor pursuant to the Certificate of Insurance.

4. Insurance Proceeds

In the event of a claim, the Contractor must, without delay, do such things and execute such documents as are necessary to effect payment of the proceeds.

5. Deductible

The payment of monies up to the deductible amount made in satisfaction of a claim must be borne by the Contractor.

STATEMENT OF WORK

1. Title:

Agassiz Ski Lift Concrete Base Removal – Riding Mountain National Park of Canada

2. Background:

The Mount Agassiz Ski Area (MASA) in Riding Mountain National Park of Canada has been closed since 2000. The 2007 Riding Mountain National Park Management Plan indicated additional leases would not be granted for the purposes of downhill skiing in the park and the Mount Agassiz area would be rehabilitated.

The metal T-Bar lifts and double chairlift structures were removed in early 2015. The concrete bases for all of these structures were left on the slopes.

3. Objective:

Parks Canada requires a Contractor to remove concrete and debris from the ski hill slopes at Mount Agassiz in Riding Mountain National Park of Canada.

4. Scope of Work:

NOTE: For the Work described herein, all resulting disposable material must be removed from the Parks Canada site by the Contractor and disposed at a disposal site approved by the Parks Canada Project Authority

NOTE: All excavations must be backfilled and leveled once the concrete is removed. No planting is required. Refer to *Section 7.1* below.

The Contractor must complete the following:

1. Removal of the large concrete blocks located at the tops of each slope (2 locations in total. Refer to attached *SOW Annex 1 – Lift Tower Blocks*.
2. Partial removal of concrete pads located on the South East and West Slopes. Refer to attached *SOW Annex 2 – Concrete Pads Locations on South East and West Slope Locations*.

Note: Size of pads is not to scale in the maps, just to show general area and quantity (approximately 40).

Concrete pads are the base of the previously dismantled chair lift towers and approximately 2-3ft by 2-3ft (varying sizes). Some are flush to ground and others are raised slightly (~1ft).

3. Filling of excavated areas with material provided by Project Authority.
4. Other minor additional debris removal as identified by the Project Authority.

5. Meetings:

1. Upon Contract Award, the Contractor must contact the Project Authority within 2 business days to discuss the work required and clarify client expectations and needs.
2. The Contractor must meet with the Project Authority on an "as and when required" basis as determined by the Contractor or Project Authority or their designate.

Arrangements for these "as and when required" meetings will be made via email or telephone conversation between the Contractor and Project Authority or their designate.

6. Reports and Deliverables:

1. The Contractor is required to submit, to the Project Authority, on or after the last day of the month, for each payment a signed invoice showing the following:
 1. Contract number,
 2. Contractor's name, address and GST number
 3. Period covered by the invoice

Unless otherwise indicated, the Goods and Services Tax (GST) is excluded from the contract price. The GST, to the extent applicable, will be incorporated into all invoices and will be paid by the Government of Canada.

7. Government Furnished Support/Equipment/Information:

Parks Canada will provide the following:

1. Parks Canada will provide appropriate fill material. Refer to *Section 8.2* below.
2. Parks Canada will cover disturbed areas with appropriate vegetation.

8. Special Considerations:

1. The Contractor must consider a path of ascent and choose equipment appropriate to the steep slopes of the hills.
2. Complete removal of concrete underground is not necessary or recommended. It is appropriate to chip out pads to a minimum 1 ft below the surface.
3. The Contractor must devise an appropriate plan for the crossing of any necessary equipment and debris over McKinnon Creek. This may include the building of a temporary crossing structure.

Note: Per Department of Fisheries and Oceans (DFO) regulations and the restricted activity window in place due to fall spawning in McKinnon Creek, equipment is not permitted to enter the waterway.

9. Acceptance Criteria:

The work will be monitored regularly for adherence to the work plan and to approve any modifications which may be required. Acceptance will be determined following examination, satisfactory completion and acceptance of the final report by the Project Authority.

ADDITIONAL INFORMATION

1. Security Classification:

All work is unclassified and the contractor will not have access to any classified information.

2. Intellectual Property

There is no Intellectual Property associated with this requirement.

SOW Annex 1 – Lift Tower Concrete Blocks

SOW Annex 2 – Concrete Pads Locations on South East and West Slopes.

BID AND ACCEPTANCE FORM – APPENDIX 2

ATTESTATION FORM

The following form must be completed and signed prior to commencing work on Parks Canada Sites.

Attestation and Proof of Compliance with Occupational Health and Safety (OHS)

Submission of this completed form, satisfactory to Parks Canada, is a condition of gaining access to the work place.

Parks Canada recognizes that federal OHS legislation places certain specific responsibilities upon Parks Canada as owner of the work place. In order to meet those responsibilities, Parks Canada is implementing a contractor safety regime that will ensure that roles and responsibilities assigned under Part II of the *Canada Labour Code* and the *Canada Occupational Health and Safety Regulations* are implemented and observed when involving contractor(s) to undertake works in Parks Canada work places.

	A meeting has been held to discuss hazards and access to the work place and all known and foreseeable hazards have been identified to the contractor and/or subcontractor(s)
	The contractor and/or its subcontractor(s) will comply with all federal and provincial/territorial legislation and Parks Canada's policies and procedures, regarding occupational health and safety.
	The contractor and/or its subcontractor(s) will provide all prescribed safety materials, equipment, devices and clothing.
	The contractor and/or its subcontractor(s) will ensure that its employees are familiar with and use all prescribed safety materials, equipment, devices and clothing at all times.
	The contractor and/or its subcontractor(s) will ensure that its activities do not endanger the health and safety of Parks Canada employees.
	The contractor and/or its subcontractor(s) has inspected the site and has carried out a hazard assessment and has put in place a health and safety plan and informed its employees accordingly, prior to the commencement of the work.
	Where a contractor and/or its subcontractor(s) will be storing, handling or using hazardous substances in the work place, it will place warning signs at access points warning persons of the presence of the substances and any precautions to be taken to prevent or reduce any hazard of injury or death.
	The contractor and/or its subcontractor(s) will ensure that its employees are instructed in respect of any emergency procedures applicable to the site.

I, _____ (contractor), certify that I have read, understood and attest that my firm, employees and all sub-contractors will comply with the requirements set out in this document and the terms and conditions of the contract.
