1.1 Introduction

The Request for Supply Arrangements (RFSA) is divided into six parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Supplier Instructions: provides the instructions applicable to the clauses and conditions of the RFSA;
- Part 3 Arrangement Preparation Instructions: provides suppliers with instructions on how to prepare the arrangement to address the evaluation criteria specified;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria which must be addressed in the arrangement and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided; and
- Part 6 6A, Supply Arrangement, 6B, Bid Solicitation, and 6C, Resulting Contract Clauses:
 - 6A, includes the Supply Arrangement (SA) with the applicable clauses and conditions;
 - 6B, includes the instructions for the bid solicitation process within the scope of the SA;
 - 6C, includes general information for the conditions which will apply to any contract entered into pursuant to the SA.

The Annexes include the Statement of Work, the Basis of Payment, Certifications, and Model Bid Solicitation Form and Resulting Contract Clauses.

1.2 Summary

1.2.1 A Supply Arrangement (SA) is a method of supply where the Identified User, under the framework of the Arrangement, may solicit bids from a pool of pre-screened suppliers. An SA is not a contract and neither party is legally bound as a result of the signing of this document alone. The intent of the SA is to establish a framework to permit the expeditious processing of legally binding contracts for goods or services. SA's include a minimum set of terms and conditions which would apply to each contract and they are issued by Public Works and Government Services Canada (PWGSC).

1.2.2 This Request for Supply Arrangement ("RFSA") is an opportunity for any interested suppliers to submit an arrangement in order to become a qualified supplier and to be authorized to provide services on an "as and when requested" basis for any work related to scheduled, dedicated transportation and related services which will mainly consist of scheduled dedicated mail/freight distribution runs and related services, intra and/or inter buildings, located in the National Capital Region and/or major city centers in Canada.

The origin and destination of the deliveries will normally be between Federal Government offices, but may not be limited to only those offices. Deliveries will be within city limits and/or contiguous areas of the city; some exceptions may apply.

It is the intent of PWGSC to issue multiple SAs for the provision of scheduled dedicated transportation and related services.

The following dedicated driver/vehicle categories are requested. Please refer to Annex B, Basis of Payment.

- A) . Dedicated Driver(s) with car(s);
- B) . Dedicated Driver(s) with station wagon(s);
- C) . Dedicated Driver(s) with ½ ton(s);
- D) . Dedicated Driver(s) with mini van(s);
- E) . Dedicated Driver(s) with cargo van (s);
- F) . Dedicated Driver(s) with cube van(s);
- G) . Dedicated Driver(s) with 1 ton(s);
- H) . Dedicated Driver(s) with 3 ton(s);
- I) . Dedicated Driver(s) with 5 ton(s).

***As well as additional labourer

***NOTE: The scope of the supply arrangement and resulting contracts are not to be used as a means to hire temporary help. Additional labour is to be used in conjunction with scheduled, dedicated transportation service runs.

1.2.3 The Identified Users include any government department, agency or Crown Corporation listed in Schedules I, I.1, II, III, of the *Financial Administration Act*, R.S., 1985, c. F-11. Identified Users will be able to issue bid solicitations and award contracts to qualified suppliers under the SA for the provision of scheduled, dedicated transportation and related services on an "as and when requested basis".

1.2.4 This requirement is subject to the Agreement on Internal Trade (AIT).

This procurement is set aside from the North American Free Trade Agreement (NAFTA) under Annex 1001.2b, Article 1.(d); and World Trade Organization - Agreement on Government Procurement (WTO-AGP) under Appendix 1, article 1.(d).

1.2.5 Period of the Supply Arrangement

The period of the SA will be from **April 01, 2016 to March 31, 2018**, plus two (2) additional one-year options.

Contracts awarded under the bid solicitation stage may extend past the SA expiry date or any extension thereof.

Options to extend the Supply Arrangement Period

The responsive supplier hereby grants to Canada the irrevocable option to extend the terms of the SA for up to two (2) additional one (1) year periods, under the same terms and conditions. Canada may exercise this option at any time by written notice to the qualified supplier at least thirty (30) days prior to the SA expiry date or any extension thereof.

Extensions will be addressed through an RFSA termed as "Annual Refresh"; (see Part 6, A. article 7 for details).

1.2.6 Comprehensive Land Claims Agreement (CLCAs)

Solicitations issued under the SAs can be used for delivery requirements to locations either inside or outside Comprehensive Land Claims Settlement Areas (CLCSAs).

Notification of the procurement will be issued to the appropriate land claimant group(s) by the Supply Arrangement Authority on the date of posting on the Government Electronic Tendering Service (GETS).

CLCAs contain specific government contracting obligations which apply when contracting for the provision of goods, services or construction in areas subject to CLCAs. For any solicitation against the Supply Arrangement that may result in deliveries of goods and/or services within a CLCSA, whenever practical and consistent with sound procurement management, additional socio-economic evaluation criteria will be included in the bid solicitation stage of the requirement to address any CLCAs contractual obligations. There may also exist some restrictions related to access to Aboriginally-owned lands. Before contracts are issued, the Identified User must review the access provisions of any applicable CLCA(s) and liaise with the appropriate contact within INAC's Implementation Branch for guidance.

1.2.7 As per the Integrity Provisions under section 01 of Standard Instructions [2008](#), suppliers must provide a list of all owners and/or Directors and other associated information as required. Refer to section [4.21](#) of the Supply Manual for additional information on the Integrity Provisions.

1.2.8 For services requirements, Suppliers must provide the required information as detailed in article 2.3 of Part 2 of the Request for Supply Arrangements (RFSA), in order to comply with Treasury Board policies and directives on contracts awarded to former public servants.

1.2.9 The requirement covered by the bid solicitation of any resulting supply arrangement may be subject to a preference for Canadian goods and/or services or may be limited to Canadian goods and/or services.

1.3 Security Requirements

The security requirement (if applicable) will only be known at the bid solicitation stage and will be identified by the Identified User.

At the bid solicitation stage, if a security requirement is needed, the Identified User will provide a Security Requirement Check List (SRCL) for the Suppliers to meet the security requirements specified.

Suppliers wishing to be sponsored for security clearance through PWGSC, Canadian Industrial Security Directorate (CISD) must contact the Supply Arrangement Authority specified in this document.

For additional information on security requirements, suppliers should consult the "Security Requirements for PWGSC Bid Solicitation - Instructions for Bidders" (<http://www.tpsgc-pwgsc.gc.ca/app-acq/lc-pl/lc-pl-eng.html#a31>) document on the Departmental Standard Procurement Documents Website.

For additional information on security requirements, suppliers should refer to the [Industrial Security Program \(ISP\)](#) of Public Works and Government Services Canada (<http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html>) website.

1.4 Canadian Content

The goods and/or services covered by the Supply Arrangement may be limited to Canadian goods and/or services as defined in clause [A3050T](#).

1.5 Debriefings

Suppliers may request a debriefing on the results of the request for supply arrangements process. The debriefing may be in writing, by telephone or in person.

PART 2 - SUPPLIER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Supply Arrangements (RFSA) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) <https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual> issued by Public Works and Government Services Canada.

Suppliers who submit an arrangement agree to be bound by the instructions, clauses and conditions of the RFSA and accept the clauses and conditions of the Supply Arrangement and resulting contract(s).

The [2008](#) (2014-09-25) Standard Instructions - Request for Supply Arrangements - Goods or Services, are incorporated by reference into and form part of the RFSA.

Subsection 5.4 of [2008](#), Standard Instructions - Request for Supply Arrangements - Goods or Services, is amended as follows:

Delete: 60 days

Insert: 90 days

2.2 Submission of Arrangements

Arrangements must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the Request for Supply Arrangements.

Due to the nature of the Request for Supply Arrangements, transmission of arrangements by facsimile to PWGSC will not be accepted.

2.3 Former Public Servant - Notification

Service contracts awarded to former public servants in receipt of a pension or a lump sum payment must bear the closest public scrutiny and reflect fairness in the spending of public funds. Therefore, the bid solicitation will require that you provide information that, were you to be the successful bidder, your status with respect to being a former public servant in receipt of a pension or a lump sum payment, will be required to report this information on the departmental websites as part of the published proactive disclosure reports generated in accordance with Treasury Board policies and directives on contracts with former public servants, [Contracting Policy Notice 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

2.4 Enquiries - Request for Supply Arrangements

All enquiries must be submitted in writing to the Supply Arrangement Authority no later than fourteen (14) calendar days before the Request for Supply Arrangements (RFSA) closing date. Enquiries received after that time may not be answered.

Suppliers should reference as accurately as possible the numbered item of the RFSA to which the enquiry relates. Care should be taken by suppliers to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that suppliers do so, so that the proprietary nature of the question(s) is

eliminated, and the enquiry can be answered to all suppliers. Enquiries not submitted in a form that can be distributed to all suppliers may not be answered by Canada.

2.5 Applicable Laws

The Supply Arrangement (SA) and any contract awarded under the SA must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Suppliers may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of the arrangement, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the suppliers.

PART 3 - ARRANGEMENT PREPARATION INSTRUCTIONS

3.1 Arrangement Preparation Instructions

Canada requests that suppliers provide the arrangement in separately bound sections as follows:

Section I:	Technical Arrangement (one hard copy)
Section II:	Financial Arrangement (one hard copy and one soft copy on CD)
Section III:	Certifications (one hard copy)

If there is a discrepancy between the wording of the soft copy and the hard copy, the wording of the hard copy will have priority over the wording of the soft copy.

Prices must appear in the financial arrangement only. No prices must be indicated in any other section of the arrangement.

Canada requests that suppliers follow the format instructions described below in the preparation of the arrangement.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Supply Arrangements.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, suppliers should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Arrangement

In the technical arrangement, suppliers should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Arrangement

Suppliers must submit the financial arrangement in accordance with the Annex B, Basis of Payment. The total amount of Applicable Taxes must be shown separately.

Section III: Certifications

Suppliers must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Arrangements will be assessed in accordance with the entire requirement of the Request for Supply Arrangements including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the arrangements.

4.1.1 Technical Criteria

4.1.1.1 Mandatory Technical Criteria

4.1.1.1 (a) Corporate Profile

The Supplier must provide its full legal name in its Arrangement.

In the case of a joint venture arrangement, the Supplier must include the identity of the members of the firm or (in the case of an incorporated joint venture) the identity of its shareholders, the principal businesses of the members/shareholders, and the ownership structure.

If the response to this RFSA is made by a joint venture, the Supplier must describe the precise nature of the joint venture, its legal status and confirm its acceptance of the following general principles:

- a) That the signatories are acting and shall be responsible jointly and severally for the Contractor's obligations under any Contract awarded to the Supplier pursuant a SA issued as a result of this RFSA;
- b) That the payment of moneys under any contract to the identified lead member will act as a release from all parties;
- c) That giving notice by the Minister to the identified lead member will act as notice to members of the joint venture;
- d) That the Minister may, at his discretion in the event of disputes among joint venture members or changes in its composition, direct that the contract be terminated, without in any way altering the liability of the original signatories for performance of the terms of the contracts; and
- e) Where Canada has determined that the joint venture lacks sufficient assets to guarantee its contract performance, financial security for the performance of the joint venture's obligations may be required or, alternatively, financial and performance guarantees will be obtained from each of the joint venture members.

4.1.1.1 (b) Supplier/Corporate relevant Projects and references

The Supplier must have performed within the past five (5) years a minimum of three (3) projects relevant to the work undertaken by scheduled, dedicated transportation and related services. To be considered, each project must have a minimum period of two months or 60 calendar days.

Each project must include the following:

- Project Description including Deliverables
- Start and End Date (year and month are sufficient. If number of days is provided with month and year,

- the number of days will override number of months)
- Client Reference (name and telephone number)
Canada reserves the right to contact the client reference if necessary in order to verify the project(s) provided by the Supplier.

4.1.2 Financial Evaluation

Suppliers are required to provide ceiling per diem rates, for any dedicated driver/vehicle and cities they wish to bid on and/or add any dedicated driver/vehicle categories or cities, as per Basis of Payment in Annex B for the Arrangement.

- Per diem is defined as a working day of 7.5 hours, exclusive of meal breaks.
- The requested ceiling per diem rates provides for one driver with vehicle; and are to be all inclusive, in Canadian dollars.
- GST/HST and fuel surcharge must not be included in the ceiling per diem rates.
- Fuel surcharge will be addressed in the bid solicitation stage and resulting contract if there is pressure on fuel prices in the marketplace.
- Overtime: All proposed personnel must be available to provide services outside normal office hours during the duration of any contract. Overtime may be paid under exceptional circumstances, provided the Identified User gives pre-approval in writing and it is in accordance with Federal and Provincial regulations.

4.1.2.1 Mandatory Financial Criteria

4.1.2.1(a) Suppliers must submit a ceiling per diem rate for at least **one city**, and one dedicated driver/vehicle category.

4.1.2.2(b) Suppliers must also provide ceiling per diem rate for additional labourer.

- Should additional labourer be offered at no charge to Canada, the supplier must indicate "no charge or N/C" under the appropriate section.
- If the additional labourer is not available, under the appropriate section the supplier must indicate "not available" or "N/A", or just leave this section blank.

4.1.2.3(c) The ceiling per rate(s) provided must cover the following periods:

- initial period from **April 01, 2016 to March 31, 2018**,
- option year one from April 01, 2018 to March 31, 2019, and
- option year two from April 01, 2019 to March 31, 2020.

4.1.2.4(d) Suppliers must use the spreadsheet provided, not any other, to provide ceiling per diem rate(s).

4.2 Basis of Selection

An arrangement must comply with the requirements of the Request for Supply Arrangements and meet all mandatory technical evaluation criteria and mandatory financial evaluation criteria to be declared responsive.

All responsive suppliers will be issued a Supply Arrangement (SA) and will become a qualified supplier under the Supply Arrangement. The ceiling per diem rates listed under the SA represent the maximum per diem rates that the qualified supplier will be allowed to propose for any bid solicitation under the SA. Qualified suppliers may submit firm rates lower than their ceiling per diem rate during the bid solicitation stage. Suppliers, upon request by the Identified User, will only be allowed to quote on requirements for dedicated driver/vehicle (including additional labourer) categories and cities for which they have qualified.

4.3 Financial Viability

SACC Manual clause [S0030T](#) (2014-11-27) Financial Viability, is incorporated by reference into and form part of the RFSA.

PART 5 - CERTIFICATIONS

Suppliers must provide the required certifications and associated information to be issued a supply arrangement (SA).

The certifications provided by suppliers to Canada are subject to verification by Canada at all times. Canada will declare an arrangement non-responsive, or will declare a contractor in default in carrying out any of its obligations under any resulting contracts, if any certification made by the Supplier is found to be untrue whether made knowingly or unknowingly during the arrangement evaluation period, or during the period of any supply arrangement arising from this RFSA and any resulting contracts.

The Supply Arrangement Authority will have the right to ask for additional information to verify the Supplier's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Supply Arrangement Authority may render the arrangement non-responsive, or constitute a default under the Contract.

5.1 Certifications Precedent to Issuance of a Supply Arrangement

The certifications listed below should be completed and submitted with the arrangement, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Supply Arrangement Authority will inform the Supplier of a time frame within which to provide the information. Failure to comply with the request of the Supply Arrangement Authority and to provide the certifications within the time frame provided will render the arrangement non-responsive.

5.1.1 Integrity Provisions - Associated Information

By submitting an arrangement, the Supplier certifies that the Supplier and its Affiliates are in compliance with the provisions as stated in Section 01 Integrity Provisions - Arrangement of Standard Instructions [2008](#). The associated information required within the Integrity Provisions will assist Canada in confirming that the certifications are true.

5.1.2 Additional Certifications Required Precedent to Issuance of a Supply Arrangement

The certifications in Annex C should be completed and submitted with the arrangement, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Supply Arrangement Authority will inform the Supplier of a time frame within which to provide the information. Failure to comply with the request of the Supply Arrangement Authority and to provide the certifications within the time frame provided will render the arrangement non-responsive.

PART 6 - SUPPLY ARRANGEMENT AND RESULTING CONTRACT CLAUSES

A. SUPPLY ARRANGEMENT

6.1 Arrangement

The Supply Arrangement covers the Work described in the Statement of Work at Annex A.

6.2 Security Requirements

There is no security requirement applicable to this Supply Arrangement. Security requirements will be addressed in the bid solicitation stage, if necessary.

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Supply Arrangement and resulting contract(s) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

6.3.1 General Conditions

[2020](#) (2014-09-25) General Conditions - Supply Arrangement - Goods or Services, apply to and form part of the Supply Arrangement.

6.3.2 Legal Name Change

An arrangement cannot be assigned or transferred in whole or in part. The arrangement is issued only to such a supplier named as the one that submits a bid. During the Supply Arrangement period, if the Supplier changes its legal name, the issued Supply Arrangement may be terminated.

6.3.3 Supply Arrangement Reporting

The Supplier must compile and maintain records on its provision of services to the federal government under contracts resulting from the Supply Arrangement.

Each time a Supplier is awarded a contract under this SA, the Supplier must report the following information to the Supply Arrangement Authority

1. contract number;
2. brief description of the contract
3. client department
4. client contact including name, phone number, e-mail address
5. contract period
6. contract value;

Failure to provide fully completed reports in accordance with the above instructions may result in the withdrawal by Canada from the Supply Arrangement, the removal of the Supplier from the list of qualified suppliers and the application of a vendor performance corrective measure.

6.4 Term of Supply Arrangement

6.4.1 Period of the Supply Arrangement

The period for awarding contracts under the Supply Arrangement is from **April 1, 2016 to March 31, 2018**, plus two (2) one-year options.

Contracts awarded under the bid solicitation stage may extend past the SA expiry date or any extension thereof.

Options to extend the Supply Arrangement Period

The responsive supplier hereby grants to Canada the irrevocable option to extend the terms of the SA for up to two (2) additional one (1) year periods, under the same terms and conditions. Canada may exercise this option at any time by written notice to the qualified supplier at least thirty (30) days prior to the SA expiry date or any extension thereof.

Extensions will be addressed through an RFSA termed as "Annual Refresh"; (see Part 6, A. article 7 for details).

MODEL BID SOLICITATION FORM and RESULTING CONTRACT CLAUSES

There are two following streams for the Identified User to consider when preparing an RFP.

Stream One

In the RFP, the Identified User provides stops and route of runs, and specifies specific service time to each stop. The suppliers propose one per diem rate per each run. In one day, there may be several runs, thus several per diem rates.

The Identified User may specify vehicle category as well; if not, the Identified User must provide historical usage data or estimated usage data of average daily weight and/or volume for each Run, so the suppliers are to propose vehicle category.

Stream Two

In the RFP, the Identified User provides stops, as well as historical usage data or estimated usage data of average daily weight and/or volume for all stops.

The Identified User states service times. Some stops are to be serviced at a specific time (e.g. at 9:30am). Some other stops can be serviced within a flexible time window (e.g. between 7:30am to 11:30am). Prior to contract award, the contractor notifies the client of the selected service times.

Suppliers estimate scope of work as a whole including route of runs and service times, and accordingly decide category and number of vehicles for each requested working day. Suppliers propose one per diem rate for each requested working day to all stops.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

***Remark to Contracting Authority:** Indicate the laws of which Canadian province or territory Canada proposes to apply to the resulting contract. The bidder, as instructed, may propose a change to the applicable laws in its bid. For the French version of the article, the term "in" was not translated because there is no such common term in French for all the provinces and territory. Therefore, the word "en" must be added in front of Alberta, Colombie-Britannique, Saskatchewan, Ontario and Nouvelle-Écosse; the word "au" in front of Manitoba, Québec, Nouveau-Brunswick, Nunavut and Yukon, the word "à" in front of Terre-Neuve-et-Labrador and l'Île-du-Prince-Édouard, and the words "dans les" in front of Territoires du Nord-Ouest.*

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____. (Insert the name of the province or territory)

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

Remark to Contracting Authority: Consult sections 04 to 09 of standard instructions 2003 or sections 04 and 05 of standard instructions 2004 before adding clauses to ensure there is no redundancy in the document.

PART 3 - BID PREPARATION INSTRUCTIONS

Before inserting additional bid preparation instructions, or clauses, consult sections 05 to 10 of Standard Instructions 2003, to ensure there is no duplication or contradictory information.

3.1 Bid Preparation Instructions

If soft copies are requested, it is recommended that the same quantity be requested for both hard and soft copies.

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (_____ hard copies) (if applicable, add "and _____ soft copies on _____", and specify the medium such as CD, DVD)

Section II: Financial Bid (_____ hard copies) (if applicable, add "and _____ soft copies on _____", and specify the medium such as CD, DVD)

Section III: Certifications (_____ hard copies)

Insert the following paragraph when soft copies are requested.

If there is a discrepancy between the wording of the soft copy and the hard copy, the wording of the hard copy will have priority over the wording of the soft copy.

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html). To assist Canada in reaching its objectives, bidders should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Applicable Taxes must be shown separately.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

Insert the following clause and insert (b) if applicable. Consult subsection 5.7 of Standard Instructions 2003 before adding additional clauses with respect to evaluation procedures to ensure there is no duplication or inconsistency.

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

Insert the following paragraph when the competition is conditionally limited to bids offering Canadian goods and services.

- (c) The evaluation team will determine first if there are two or more bids with a valid Canadian Content certification. In that event, the evaluation process will be limited to the bids with the certification; otherwise, all bids will be evaluated. If some of the bids with a valid certification are declared non-responsive, or are withdrawn, and less than two responsive bids with a valid certification remain, the evaluation will continue among those bids with a valid certification. If all bids with a valid certification are subsequently declared non-responsive, or are withdrawn, then all the other bids received will be evaluated.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria

(The following example of two vehicles for two Runs is applicable to both Stream One and Stream Two)

4.1.1.1(a) Proposed Driver(s)

The Bidder must provide the names of the (2) proposed drivers *(for two runs in this example)*.

4.1.1.1(b) Experience and Expertise of Proposed Driver(s)

The proposal must demonstrate that the proposed primary driver(s) meets the following minimum mandatory qualifications:

- must have six (6) months or more experience as a driver in transportation services;
- must be security cleared to Secret *(if applicable, in this example Secret level is required)*;
- be (drivers) bonded in the amount of \$ 5,000. The bidder must indicate that drivers are bonded.
- proof of bonding (certificate of bonded insurance) must be submitted with the bid.
(Remarks: proof of bonding may also be requested only prior to contract award)

In order to demonstrate that the proposed driver(s) possess the qualifications specified above, the bidder must provide a résumé for each of the proposed primary driver(s) stating the individual's work experience, which indicates that the individual meets the above stated qualifications. Failure to provide sufficient details will result in your bid being rendered non-responsive. Please note that project references may be required for the proposed driver(s).

4.1.1.1(c) Equipment

All material handling equipment must be supplied by the contractor. The Bidder must provide confirmation that the vehicles will be equipped with the following equipment: *(For this example where two runs require these types of vehicles)*

- i) Cargo van must be equipped with a hand cart.
- ii) 5-Ton Truck must be equipped with a hydraulic tailgate and must also be equipped with load restraining straps or bars to stop loads from moving inside the vehicle. A pallet mover and other handling equipment (as required) such as flat bed trucks to move material to and from buildings may be required.

(The following example is applicable to Stream Two only)

4.1.1.1(d) Vehicles required to service the requirement:

- i) The size of vehicles required must be determined by the bidder in any pickup and/or delivery point specified in Annex "E-6", Schedule of Stops with Building Locations.
- ii) The bidder may propose up to three (3) vehicles with driver to provide required services.
- iii) The bidder must specify **each** vehicle size that will be used to provide required services; for example: one Car, one Mini-Van, one Cargo Van.

4.1.2 Financial Evaluation

The rates must be presented in the format detailed in the Basis of Payment (to be determined by the Identified User) for the period, from *(to be determined by the Identified User)* to *(to be determined by the Identified User)*. All prices are firm and in Canadian dollars.

The lowest aggregate priced responsive bid will be calculated by taking the sum total of all rates submitted on Annex "E-2" Basis of Payment. Formula Calculations: Aggregate Total of the Basis of Payment for all years for which the Identified User has created the contract for, including option years *(if applicable)*.

4.2 Basis of Selection

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Precedent to Contract Award

The certifications listed in Annex "E-3", Certifications, should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

5.1.1 Integrity Provisions - Associated Information

By submitting a bid, the Bidder certifies that the Bidder and its Affiliates are in compliance with the provisions as stated in Section 01 Integrity Provisions - Bid of Standard Instructions [2003](#)). The associated information required within the Integrity Provisions will assist Canada in confirming that the certifications are true.

The baseline fuel price is set to \$0.95 per litre which will be equal to a 2% fuel surcharge. For every \$0.04 increase/decrease (or increment thereof) in the average monthly price of fuel, (see MJ Ervin & Associates price indicator) the contractor will implement a 1% increase/decrease to the fuel surcharge percentage %.

The fuel surcharge is to be expressed as a % (percentage) of the total transportation cost and shown as a separate line item on the firm's invoice.

6.6.3.1 Pursuant to paragraph 221 (1)(d) of the Income Tax Act, R.S. 1985, c.1 (5th Supp.), payments made by departments and agencies to contractors under applicable services contracts (including contracts involving a mix of goods and services) must be reported on a T1204 Government Service Contract Payments slip.

6.6.3.2 To enable departments and agencies to comply with this requirement, the Contractor must provide Canada, upon request, its business number or Social Insurance Number, as applicable. (These requests may take the form of a general call-letter to contractors, in writing or by telephone).

6.6.4 SACC Manual Clauses

6.6.4.1 Replacement of Specific Individuals

i) If specific individuals are identified in the Contract to perform the Work, the Contractor must provide the services of those individuals unless the Contractor is unable to do so for reasons beyond its control.

ii) If the Contractor is unable to provide the services of any specific individual identified in the Contract, it must provide a replacement with similar qualifications and experience. The replacement must meet the criteria used in the selection of the Contractor and be acceptable to Canada. The Contractor must, as soon as possible, give notice to the Contracting Authority of the reason for replacing the individual and provide:

- (a) the name, qualifications and experience of the proposed replacement; and
- (b) proof that the proposed replacement has the required security clearance granted by Canada, if applicable.

iii) The Contractor must not, in any event, allow performance of the Work by unauthorized replacement persons. The Contracting Authority may order that a replacement stop performing the Work. In such a case, the Contractor must immediately comply with the order and secure a further replacement in accordance with subsection ii). The fact that the Contracting Authority does not order that a replacement stop performing the Work does not relieve the Contractor from its responsibility to meet the requirements of the Contract.

6.6.4.2 Canadian Content Certification

i) The Contractor warrants that the certification of Canadian Content submitted by the Contractor is accurate and complete, and that the goods, services or both to be provided under the Contract are in accordance with the definition contained in clause A3050T.

The Contractor must provide all facilities for such audits, inspections and examinations, and must furnish all such information as the representatives of Canada may from time to time require with respect to such records and documentation.

6.7 Invoicing Instructions

Invoicing requirements and breakdown are to be specified by each Identified User directly to the contractor. Some Identified User will require hard copies of the pickup and delivery slips signed by the person receiving the delivery. There will be no cost to the Identified Users for this. Payment will only be made upon submission of an invoice to the satisfaction and acceptance of the respective Client Department Project Authority.

The original and two (2) copies of each invoice must be sent monthly, within five (5) working days from the end of each month to:

6.8 Certifications

6.8.1 Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

Remark to Contracting Authority: *Ensure the applicable law selected by the proposed contractor, or in the absence of such selection, the law indicated in the bid solicitation, is inserted in the blank. The Bidder, as instructed, will be able to propose a change to the applicable laws in its bid. For the French version of the clause, the term "in" was not translated because there is no such common term in French for all the provinces and territory. Therefore, for the French version of the clause, the word "en" must be added in front of Alberta, Colombie-Britannique, Saskatchewan, Ontario and Nouvelle-Écosse; the word "au" in front of Manitoba, Québec, Nouveau-Brunswick, Yukon and Nunavut, the word "à" in front of Terre-Neuve-et-Labrador and l'Île-du-Prince-Édouard, and the words "dans les" in front of Territoires du Nord-Ouest.*

6.9 Applicable Laws

Remark to Contracting Authority: *The order of documents shown below reflects current Policy and Legal advice. The contracting authority must amend the list to reflect the applicable documents and list the annexes in order of priority, as applicable.*

6.10 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

(h) the Contractor's bid dated _____ *(insert date of bid) (If the bid was clarified or amended, insert at time of contract award: "* as clarified on _____ *" or "* as amended on _____ *" and insert date(s) of clarifications or amendment(s))*

6.11 Insurance Requirements

The Contractor must comply with the insurance requirements specified in Annex "E-5". The Contractor must maintain the required insurance coverage for the duration of the Contract. Compliance with the insurance requirements does not release the Contractor from or reduce its liability under the Contract.

The Contractor is responsible for deciding if additional insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any additional insurance coverage is at the Contractor's expense, and for its own benefit and protection.

The Contractor must forward to the Contracting Authority within ten (10) days after the date of award of the Contract, a Certificate of Insurance evidencing the insurance coverage and confirming that the insurance policy complying with the requirements is in force. Coverage must be placed with an Insurer licensed to carry out business in Canada. The Contractor must, if requested by the Contracting Authority, forward to Canada a certified true copy of all applicable insurance policies.

Remark to Contracting Authority: *If applicable, insert in full text additional SACC Manual clauses not belonging under existing articles, as stand alone articles with appropriate numbering (ex. 13, 14, etc.)*
