

Q&A #3

Date: December 4th, 2015

Project: Pathology Lab project in St-John's

Bidders must make sure that their bids are based on the latest version of the tender documents published and take into consideration the following amendments and information, including any information provided in amendments or Q&As previously published for this project.

Bidders that do not comply with this requirement will be discarded.

Question:

In section 01 35 54, 1.2.1 it states to carry for security staff during after-hours work and to contact PWGSC to obtain an hourly rate for this service. Could you please advise what this hourly rate would be, as well as minimum hours and cancellation fees?

Answer:

This is an error in the specification as this project is not being managed by PWGSC thus the question of carrying security staff after hours is not applicable. Once the contractor is security cleared by AAFC, they are permitted to access the building after hours as long as it is coordinated with AAFC in advance.

All other conditions and requirements remain unchanged.
