This Solicitation Amendment has been raised to address questions posed by a bidder.

QUESTION & ANSWER

Item	Spec-RFP Description	Question	Answer
1	<p>ANNEX A, Section 16.6.8 TWO (2) Grab lines of nylon braided rope construction ½" diameter, must be fitted Inboard AND Outboard, along the collar on both the port and starboard sides to provide access from both within the boat and for persons in the water. Grab lines must be mounted approx. 3" away from the centerline of the collar, by means of a lacing cuff (not by d ring attachment), and must hang down 3 to 6 inches.</p>	<p>We would recommend for each vessel to have a single set of grab lines outboard rather than one inboard and one outboard. With two sets on the collar, the space between the two lacing cuffs tends to fill up with water. Would the customer be okay with the single outboard grab line?</p>	<p>Yes, your proposed alternative is acceptable.</p>
2	<p>ANNEX A, Section 17.5.8: One 12 VDC accessory plug with USB adaptor complete with screw on watertight cap must be installed on the console, one must be installed at the bow box forward as well.</p>	<p>The 12 VDC accessory plugs that are available with a screw on cap are not of the 'cigarette lighter' style, which would make adding a USB adaptor difficult. We would like to propose a dual purpose 12 VDC plug-in that offers both a 'cigarette lighter' style receptacle as well as two USB receptacles. These come with water resistant covers. Would the customer be okay with switching to this style and forgoing the screw on caps?</p>	<p>Yes, your proposed alternative is acceptable.</p>

All other terms and conditions of the solicitation document remain the same.
