This solicitation amendment 005 is to answer question posed by a bidder.

Question one:

I would like to know where the hose reels are to be mounted on the unit and what type and size the reels are to be as portable units don't normally have hose reels on them. Also Atlas Copco don't make a 375 model anymore, they have a 400 cfm's unit.

Answer:

The location, size and type of Double Hose Reels does not matter as long as they are compatible with the machines offered, with regards to Atlas Copco's machine, any model and make is acceptable as long as they meet the mandatory requirements.

All Other Terms And Conditions Remain The Same
