Bidders should demonstrate their capability for providing an online engagement tool with the functions and capabilities required by CRA in a thorough, concise and clear manner for carrying out the work.

The technical proposal should address clearly and in sufficient depth the items that are subject to the evaluation criteria. Simply repeating the statement contained in the solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

The Bidder must complete and sign the front page (page 1) of the RFP and return it with their submitted proposal. The Bidder's complete legal name must be properly set out on the front page.

Section II Financial Proposal

The Bidder shall provide prices for the (goods and services) requested in the Statement of Requirement, using the format outlined in Annex B: Financial Proposal. The total amount of Applicable Taxes must be shown separately, if applicable.

3.1 NUMBER OF COPIES

The Bidder is requested to submit the following number of printed and soft copies of the separately bound sections as follows:

The soft copies must be provided in a format that is compatible with:

- Microsoft Office 2010
- Supporting information and certifications can be provided in Adobe PDF format.

The master copy (one original hard copy) must be clearly labelled and contain original signatures. If there is a discrepancy between the wording of the soft copy and the printed copy, the wording of the master copy will have priority over the wording of the soft copy.

The financial proposal must be provided on a separate CD-ROM, DVD or USB stick.

3.2 BID FORMAT

CRA requests that the Bidder follow the format instructions described below in the preparation of their bid:

- Use recycled-fibre content paper and two-sided printing. Reduction in the size of documents will contribute to CRA’s sustainable development initiatives and reduce waste;

PART 4 EVALUATION AND SELECTION

4.1 GENERAL

A committee composed of representatives of CRA will evaluate the proposals on behalf of the Agency. The services of independent consultants may be called upon to assist in the evaluation of, or in the validation of, specific aspects of the solution proposed. CRA reserves the right to engage any independent consultant, or use any Government resources, which it deems necessary to evaluate any proposal.

Proposals will be evaluated in accordance with the evaluation criteria identified in Annex A and in conjunction with the Statement of Requirement (SOR). Bidders are encouraged to address these criteria in sufficient depth in their proposals to permit a full evaluation of their proposals. The onus is on the Bidder to demonstrate that it meets the requirements specified in the solicitation.

Bidders are advised that only listing experience without providing any supporting information to describe where and how such experience was obtained will not be considered to be demonstrated for the purpose of the evaluation. The Bidder should not assume that the evaluation team is necessarily cognizant of or knowledgeable about the experience and capabilities of the Bidder or any of the proposed resource(s); as such, any relevant experience must be demonstrated in the Bidders' written proposal.

Canada will evaluate the bid only on the documentation provided as part of the bid. References in a bid to additional information not submitted with the bid, such as website addresses where additional information can be found or technical manuals or brochures not submitted with the bid will not be considered in the evaluation of the bid.

4.2 STEPS IN THE EVALUATION PROCESS

The selection process to determine the successful Bidder will be carried out as follows:

Notwithstanding Steps 1 and 2 below, in order to expedite the evaluation process, CRA reserves the right to conduct Step 3 - Evaluation of Financial Proposals concurrently with Steps 1 and 2. Should CRA elect to conduct Step 3 prior to the completion of Step 2, the information in the Financial Proposal will not be disclosed to the team evaluating the mandatory and rated sections until the completion of Steps 1 and 2. However, if the Contracting Authority is able to ascertain that a proposal is non-responsive by virtue of incomplete information or an error in the financial proposal, the Contracting Authority will advise the team evaluating the mandatory and rated sections that the proposal is not compliant and should no longer be considered. The concurrent evaluation of the financial proposal does not in any way construe compliance in Steps 1 and 2 despite the statement "All bids meeting the minimum thresholds in Step 2 will proceed to Step 3".

Please note that all numbers and figures used in the Point-Rated and Financial Evaluation will be rounded to two decimal places.

STEP 1 – EVALUATION AGAINST MANDATORY CRITERIA

All bids will be evaluated to determine if the mandatory requirements detailed in Annex A "Statement of Requirement and Bidder response Form" have been met. Only those bids meeting ALL mandatory requirements will then be evaluated in accordance with Step 2 below.

STEP 2 – EVALUATION AGAINST POINT-RATED CRITERIA

All bids meeting the criteria from Step 1 will be evaluated and scored, in accordance with the point-rated criteria detailed in Annex A "Statement of Requirement and Bidder response Form", to determine the Bidder's Total Technical Merit Score. Bids will then be evaluated in accordance with Step 3 below.

STEP 3 – EVALUATION OF FINANCIAL PROPOSALS

Only technically compliant bids meeting all of the requirements detailed in Steps 1 and 2 will be considered at this point.

Prices submitted will be evaluated to determine the bid evaluation price as defined in Annexe B: "Financial Proposal and Basis of Payment". Once the bid evaluation prices are determined under Step 3, the proposals will proceed to Step 4.

Bidders must provide a price, percentage, or weight, as applicable, for each item identified in the format specified in Annex B: Financial Proposal. Ranges (e.g., \$10-\$13) are not acceptable.

Should there be an error in the extended pricing of the bid, the unit pricing and rates shall prevail and the extended pricing shall be corrected in the evaluation. Any errors in quantities of the bid shall be changed to reflect the quantities stated in the RFP.

Should the Bidder not provide a price, percentage, or weight (for example: the space is left blank or struck through or the letters N/A or the words "no charge" or "included") for one or more items in Attachment 3: Financial Proposal the following steps will be taken:

1. The CRA Contracting Authority will notify the Bidder of any omission(s) in its financial proposal and give it the opportunity to withdraw its bid, or agree to the following process:
 - If the Bidder does not wish to withdraw its bid, the CRA will insert a price, a percentage or a weight, of \$0.00, 0.00%, or 0.0000 lbs., as applicable for evaluation purposes, for all cells in which financial information is omitted. The corresponding price, percentage, or weight of \$0.00, 0.00%, or 0.0000 lbs., as applicable would also be reflected in any resulting contract and the Bidder would be obliged to honour those prices for the period of the contract, including any option period, as applicable.
 - The Bidder must advise the Contracting Authority of its decision to withdraw the bid or agree to the process described above in writing, within two **(2) business days** of notification. If the Bidder does not respond within the two (2) business days, CRA will render the bid non-responsive and the bid will receive no further consideration.

STEP 4 – BASIS OF SELECTION

BASIS OF SELECTION – HIGHEST COMBINED RATING OF TECHNICAL MERIT AND PRICE SCORE

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the solicitation; and
 - b. meet all mandatory criteria;
2. Bids not meeting (a) or (b) will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 30 % for the technical merit and 70 % for the price.

4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained divided by the maximum number of points available multiplied by the ratio of 30 %.
5. To establish the pricing score, the overall price score for each responsive bid will be determined as follows: lowest evaluated Bidder's price divided by each responsive Bidder's price, multiplied by the ratio of 70 % .
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.

In situations where two or more bidders achieve the same total combined rating of technical merit and price score, the bidder recommended for award of the contract will be the compliant bidder with the lowest priced bid.

Bidder	Technical Points out of 1000	Technical Merit Score (X) (30%)	Bid Price	Price Score (Y) (70%)	Total Combined Rating (X+Y)

*Lowest priced technically compliant proposal (Bidder 1)

**Highest scoring technically compliant proposal (Bidder 5)

***Winning proposal (Bidder 2)

BASIS OF SELECTION - LOWEST PRICE PER POINT

1. To be declared responsive, a bid must:
 - a. comply with all the requirements of the solicitation;
 - b. meet all mandatory technical evaluation criteria;

2. Bids not meeting (a) or (b) will be declared non-responsive. Neither the responsive bid that receives the highest number of points nor the one that proposed the lowest price will necessarily be accepted. The responsive bid with the lowest evaluated price per point will be recommended for award of a contract.

In situations where two or more bidders achieve the same Price per Point, the bidder recommended for award of the contract will be the compliant bidder with the lowest priced proposal.

The following example illustrates how Price per Point is determined. The Officer may wish to revise the following example to reflect the scoring methodology of their specific requirement.

** Highest scoring technically compliant proposal (Bidder 5)

*** Lowest Price Per Point - Winning proposal (Bidder 2)

STEP 5 –SELECTION

The Bidder with the highest ranked responsive bid and having passed all of the Step 4 requirements as described above will be considered the successful Bidder for this requirement and will be recommended for Step 6- Proof of Proposal Testing.

STEP 6 – BASIS OF SELECTION – OTHER REQUIREMENTS

1. PROOF OF PROPOSAL TESTING

The Bidder with the highest ranked responsive bid as defined in Step 4 will proceed to the Proof of Proposal Testing phase of the evaluation; The Contracting Authority may request the Bidder to provide their proposed solution for demonstration and Proof of Proposal (POP) testing at a CRA designated site, with the participation and assistance of the Bidder.

The purpose of the Proof of Proposal will be to validate the Bidder’s proposal and proposed solution related to the mandatory and point-rated requirements. If there is an obvious discrepancy between the product or the performance of the products provided for Proof of Proposal Testing and the solution proposed in the Bidder’s proposal, CRA reserves the right to conduct whatever further tests are required to validate the Bidder’s proposal.

Within five(5) working days of a request from the Contracting Authority, the Bidder with the highest ranked responsive bid must deliver their solution ready for test at a CRA designated site in the Canada National Capital Region (to be determined prior to Bidder notification). CRA will assume all costs related to the facilities provided, the required infrastructure (i.e. the CRA network) and CRA employees. All Bidder costs, including delivery of the solution and support during the POP will be the responsibility of the Bidder. CRA will conduct all tests utilizing CRA developed test procedures.

The Proof of Proposal testing timeline shall not exceed seven (7) working days, unless extended in writing by the Contracting Authority at CRA's sole discretion. If a deficiency is detected during the Proof of Proposal, the Bidder will have the opportunity to correct any deficiencies (including the provision of replacement equipment) during the Proof of Proposal testing, provided that all deficiencies are corrected within the xx working days testing timeline.

If the proposed solution fails to meet one of the tested mandatory requirements of the SOR at the end of the seven(7) working day test period, the bid will be declared non-responsive. The Bidder will remove their solution from the test site and CRA will invite the Bidder with the next highest ranked responsive bid to participate in the Proof of Proposal testing phase of the evaluation.

If the proposed solution fails to meet one of the tested point-rated requirements of the SOR at the end of the seven (7) working day test period, the Bidder's proposal will be re-evaluated to adjust the point-rated scoring assessed for each applicable criterion. Steps Two, Three and Four will be repeated to reassess the bids and should the Bidder no longer be the highest-ranked responsive bid, the Bidder will remove their solution from the test site and CRA will invite the bidder with the next highest ranked responsive bid to participate in the Proof of Proposal testing phase of the evaluation.

CRA reserves the right to conduct POP testing after Contract Award at its sole discretion.

STEP 7 – CONTRACT ENTRY

The Bidder with the highest ranked responsive bid and meeting all the requirements listed above will be recommended for award of a contract.

PART 5 CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

Canada will declare a bid non-responsive if:

- Certifications are completed incorrectly; or
- Legal name is not provided; or
- Required signatures are missing; or
- Certifications are not submitted as requested.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default in carrying out any of its obligations under the Contract, if any certification made by the Bidder is found to be untrue, whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

The Bidder must submit the original of the completed **Annex C**: "Certifications required to be submitted at time of bid closing" along with its bid, by the bid closing date.

When notified by the Contracting Authority, the Bidder shall submit the original of the completed **Annex D**: "Certifications required to be submitted prior to contract award" at the time and date specified by the Contracting Authority. However, at their discretion, Bidders may submit these certifications with their proposal.

The Bidder should contact the Contracting Authority if they require further clarification on any certification.
