### Questions and Answers:

Q1. \*Question from site visit in regards to geotextile

A1. To address the bidder's question today regarding the area of geotextile required, I think it best to assume that the whole site will require it.

The design covers an area of 3,090 m<sup>2</sup>. The geotextile will need to cover this area, while accounting for the manufacturer's specification for overlap between fabric sections.
