THIS SOLICITATION AMENDMENT 009 IS RAISED TO ANSWER QUESTIONS RAISED BY THE INDUSTRY AND TO MAKE CLARIFICATIONS TO THE RFP

Question 54:

UML is standard of Software development which has been extended to enterprise architecture. Though CBSA's enterprise architects may make use of UML, in our experience it is not used by other Departments within the Federal Government. As this RFP has a multi-departmental clause and UML is not widely used within Canada, we request that you remove this Mandatory Requirement or move it to a Rated Requirement

Response 54:

UML is an extensible modelling language that has enterprise modelling capabilities. This requirement was reviewed by a multi-departmental team and deemed mandatory. As such Canada rejects the request to remove or move M11.

Question 55:

M-9 specifies:

The EA Solution must allow a minimum of 50 concurrent connections for users to access the same repository.

With the number of Developer users estimated to be at over 110 and the number of read-only users estimated to be up to 2,000 the number "50 concurrent connections" seems quite low.

If possible, could you please confirm with your client.

Response 55:

Canada confirms 50 is correct.

ALL OTHER TERMS AND CONDITIONS OF THE BID SOLICITATION REMAIN THE SAME
