Amendment 001– Laundry Washers & Dryers, is being issued in response to Bidder's questions and Canada's responses and to amend Annex "A" Requirement.

Q1. Reference Annex A Requirement 2.0 (m)

"Can you confirm the voltage requirements for the washer? The indicated max circuit breaker amps appears low for a washer of this size with a 208V, single phase voltage configuration. Generally we see a minimum 20 Amp Circuit Breaker required."

A1. The breaker size will be changed to 20amp.

Refer: 2.0 (m) Annex "A" Requirement
Delete: in its entirety
Insert: 2.0 (m) Annex "A" Requirement

2.0 **DELIVERABLES – Industrial Washer/Extractor Machine**
m) Maximum circuit breaker size: 20 Amps

Q2. Reference Annex A Requirement 2.0 (i) & Annex A Requirement 3.0 (h)

"Are there any specific restrictions in terms of door dimensions etc. that require the specified space requirements for the washers & dryers? Would a variance of approximately 5% on the specified dimensions affect clearances?"

A2. The dimensions of the machine are max due to space limitations. If we exceed this space they will not fit. We have existing equipment that meets these dimensions

Q3. Reference Annex A Requirement 2.0 (g)

"What is the G force required for the proposed new washer extractors? I believe there is a typo in the document."

A3. The g Force required is approximately 300.

Refer: 2.0 (g) Annex "A" Requirement
Delete: in its entirety
Insert: 2.0 (g) Annex "A" Requirement

2.0 **DELIVERABLES – Industrial Washer/Extractor Machine**
g) Must have at least one spin cycle generating a force of at least 300 G's.

Q4. *"What makes and models are your existing washers and dryers?"*

A4. The current washers are 3 Wascomat EXSM 230 C with Residual Moisture Control and one Cissell 50. The current dryers are Wascomat TD75 and one Milnor ML758.

CCC No./N° CCC - FMS No./N° VME

Q5. *“As an accompaniment to the Washer/Extractor you have specified in Annex A. Is an alternative Electric or Steam heated dryer acceptable as long as all other specifications are met?”*

A5. The building is prewired, piped and vented for Natural gas. Steam or electric would not be acceptable.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
