**This solicitation amendment has been issued to address questions posed by a supplier, and to amend the Annex A, Requirement.**

----- **Question & Answer** -----

**Question 1:**

In regards to the delivery requirements of the fibreglass floats, SECTION 00 20 00 – SUMMARY OF WORK, Article 1.5.2 states that, "Delivery of work shall be no later than 3 weeks for the minimum order of 25 units, and 1 additional week for every additional 25 units ordered on single call-up."

I really don't see this as being realistic, what is the penalty for being late? Is there flexibility on this delivery schedule?

**Answer 1:**

Small Craft Harbours has determined that article 1.5.2 will be revised as follows: "Delivery of work shall be no later than ~~34~~ weeks for the minimum order of 25 units, and ~~4 additional week~~ 10 business days for every additional 25 units ordered on single call-up."

The penalty for being late is the Offeror would be in (partial or full) default on that call-up, which may trigger vendor performance corrective measures or other action to be taken by Canada.

**Question 2:**

In Section 35.51.23, 1.1 Materials, .3 Plywood, sub-article .2 states a requirement of, "Grade: solid two sides."

This particular grade is not specified in the Canply Handbook. The closest grade is Good 2 Sides, which is sanded on both side and would mitigate against a stronger bonding process. Can you please give some guidance on this?

**Answer 2:**

The solid two sides grade is a standard finish under Canply and is not a sanded surface. For more information, see: [http://www.canply.org/english/products/csp/csp\\_sanded\\_s2s.htm](http://www.canply.org/english/products/csp/csp_sanded_s2s.htm)

Insert: "Delivery of work shall be no later than 4 weeks for the minimum order of 25 units, and 10 business days for every additional 25 units ordered on single call-up."
