This Amendment 002 is raised to include the list of site visit attendees and Addendum #1.

The following firms were in attendance at the optional site visit:

Vancouver Pile Driving Ltd.

JJM

SSIS

Vector Corrosion.

Please find Addendum #1 herein.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.

The following revisions supersede the information contained in the original drawings and specification issued for the above named project, and shall become part thereof. No consideration will be allowed for extras due to the contractor or any subcontractor not being familiar with this Addendum.

1. QUESTIONS/RESPONSES

Question 1:

On the site visit we noticed that in the area that needs to be excavated for the new abutment there is a catch basin in that location. What would you like to be done about this since there isn't anything in the drawings and the new lock-block wall will be in the way or reinstating it in the same location.

Answer 1:

The owner (DFO) will take responsibility of the extra work to replace this catch basin if we decide it is necessary. All bidders will not consider this work when bidding on this project.

Question 2:

What is the current load rating on the wharf?

Answer 2:

The maximum axle load for the wharf work will be 125 kN.
