Amendment 008 is raised to extend the closing date to 15 February 2016 and to answer bidders' questions.

Questions and answers

Q1: The published support dates for Windows 7 and Windows Server 2008 will expire before the term of the Proposed Standing Offers

End of Mainstream Support January 15, 2015

End of Extended Support January 14, 2020

Given the terms of the Proposed Standing Offers, wouldn't it be appropriate to request Windows 8.1 as the preferred Windows Operating System in order to ensure full software support throughout the periods of the Proposed Standing Offers ?

i.e. End of Mainstream Support for Windows 8.1 is January 9, 2018

End of Extended Support for Windows 8.1 is January 10, 2023

A1: We cannot use Windows 8.1 as the Government of Canada designated Windows 7 as the current official Windows environment.

Q2. What is the required Optical Resolution at 200ppm ? A preferred Optical Resolution of 600dpi can be achieved but at much lower speeds.

A2. The required Optical Resolution at 200ppm is 200dpi. We understand that the device must slow down in order to get an Optical Resolution of 600dpi.

Q3.

In Section 6.7, the following question:

The original NISO stipulated a 2-hour on site response time. Amendment #002 Answer #5 has changed the response time from 2 hours to 2 days. This lengthened response time may be practical for Categories 3-11 however considering the mission critical environment for Categories 1 and 2 and the volume required to be scanned, 48 hours would have a significant impact on scanning capabilities and downstream process affecting service levels with customers. We would recommend to revert to a 2-hour response time for category 1 and category 2 scanners to avoid affecting key turnaround times. A 2hr response time would have a two-fold benefit; A) It would maximize production efficiency of the Government's scanning operation and reduce significant downtime and impacts to downstream process and, B) Minimize the need to purchase additional scanners required to provide production redundancy to accommodate the revised, lengthened response time of 48 hours. Please confirm if the response time for Category 1 and 2 scanners is actually 48 hours or 2 hours.

A3: We accept an on-site response time of 48 hours.

ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
