

**Q and A's H0541 ITT-Interior Retrofit at Ottawa Fallowfield Laboratory**

Question 1: The tender specifications document for PW-16-00716861 (CFIA Interior Retrofits) makes reference to a Designated Substance Report, but this document doesn't appear to be included for download on MERX or Buy & Sell. Will this be made available?

Answer 1:

The DSR is currently being conducted. It will be disclosed to all bidders but not available for the Site Meeting. It will be available before any construction begins. If there is any action required as a result of the DSR an addendum will be made to the Contract.
