"Party" means Canada, the Contractor, or any other signatory to the Contract and "Parties" means all of them;

"Work" means all the activities, services, goods, equipment, matters and things required to be done, delivered or performed by the Contractor under the Contract.

02 Powers of Canada

All rights, remedies, powers and discretions granted or acquired by Canada under the Contract or by law are cumulative, not exclusive.

03 Status of the Contractor

The Contractor is an independent contractor engaged by Canada to perform the Work. Nothing in the Contract is intended to create a partnership, a joint venture or an agency between Canada and the other Party or Parties. The Contractor must not represent itself as an agent or representative of Canada to anyone. Neither the

Contractor nor any of its personnel is engaged as an employee or agent of Canada. The Contractor is responsible for all deductions and remittances required by law in relation to its employees.

04 Conduct of the Work

1. The Contractor represents and warrants that:
 - a. it is competent to perform the Work;
 - b. it has everything necessary to perform the Work, including the resources, facilities, labour, technology, equipment, and materials; and
 - c. it has the necessary qualifications, including knowledge, skill, know-how and experience, and the ability to use them effectively to perform the Work.

2. The Contractor must:
 - a. perform the Work diligently and efficiently;

 - e. perform the Work in accordance with standards of quality acceptable to Canada and in full conformity with the specifications and all the requirements of the Contract;
 - f. provide effective and efficient supervision to ensure that the quality of workmanship meets the requirements of the Contract.

05 Subcontracts

The Contractor may subcontract the supply of goods or services that are customarily subcontracted by the Contractor. Subcontracting does not relieve the Contractor from any of its obligations under the Contract or impose any liability upon Canada to a subcontractor. In any subcontract, the Contractor agrees to bind the subcontractor by

the same conditions by which the Contractor is bound under the Contract, unless the Contracting Authority agrees otherwise.

06 Time of the Essence

It is essential that the Work be performed within or at the time stated in the Contract.

07 Excusable Delay

1. A delay in the performance by the Contractor of any obligation under the Contract that is caused by an event that:
 - a. is beyond the reasonable control of the Contractor;
 - b. could not reasonably have been foreseen;
 - c. could not reasonably have been prevented by means reasonably available to the Contractor; and
 - d. occurred without the fault or neglect of the Contractor,

will be considered an "Excusable Delay" if the Contractor advises the Contracting Authority of the occurrence of the delay or of the likelihood of the delay as soon as the Contractor becomes aware of it. The Contractor must also advise the Contracting Authority, within fifteen (15) working days, of all the circumstances relating to the delay and provide to the Contracting Authority for approval a clear work around plan explaining in detail the steps that the Contractor proposes to take in order to minimize the impact of the event causing the delay.

2. Any delivery date or other date that is directly affected by an Excusable Delay will be postponed for a reasonable time that will not exceed the duration of the Excusable Delay.
3. However, if an Excusable Delay has continued for thirty (30) days or more, the Contracting Authority may, by giving notice in writing to the Contractor, terminate the Contract. In such a case, the Parties agree that neither will make any claim against the other for damages, costs, expected profits or any other loss arising out of the termination or the event that contributed to the Excusable Delay. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.

4. Unless Canada has caused the delay by failing to meet an obligation under the Contract, Canada will not be responsible for any costs incurred by the Contractor or any of its subcontractors or agents as a result of an Excusable Delay.

08 Inspection and Acceptance of the Work

All the Work is subject to inspection and acceptance by Canada. Inspection and acceptance of the Work by Canada does not relieve the Contractor of its responsibility for defects or other failures to meet the requirements of the Contract. Canada will have the right to reject any work that is not in accordance with the requirements of the Contract and require its correction or replacement at the Contractor's expense.

09 Invoice Submission

1. Invoices must be submitted in the Contractor's name. The Contractor must submit invoices for each delivery or shipment; invoices must only apply to the Contract. Each invoice must indicate whether it covers partial or final delivery.
2. Invoices must show:
 - a. the date, the name and address of the client department, item or reference numbers, deliverable and/or description of the Work, contract number and financial code(s);
3. If applicable, the GST or HST must be specified on all invoices as a separate item. All items that are zero-rated, exempt or to which the GST or HST does not apply, must be identified as such on all invoices.
4. By submitting an invoice, the Contractor certifies that the invoice is consistent with the Work delivered and is in accordance with the Contract.

10 Taxes

1. Municipal Taxes

Municipal Taxes do not apply.

2. Provincial Taxes

- a. Excluding legislated exceptions, federal government departments and agencies are not required to pay any sales tax payable to the province in which the taxable goods or services are delivered. This exemption has been provided to federal government departments and agencies under the authority of one of the following:

- i. Provincial Sales Tax (PST) Exemption Licence Numbers, for the provinces of:

British Columbia – PST-1000-5001

Manitoba 390-516-0

- ii. for Quebec, Saskatchewan, the Yukon Territory, the Northwest Territories and Nunavut, an Exemption Certification, which certifies that the goods or services purchased are not subject to the provincial/territorial sales and consumption taxes because they are purchased by the federal government with Canada funds for the use of the federal government.

- b. Currently, in Alberta, the Yukon Territory, the Northwest Territories and Nunavut, there is no general PST. However, if a PST is introduced in Alberta, the Yukon Territory, the Northwest Territories or Nunavut, the sales tax exemption certificate would be required on the purchasing document.
- c. Federal departments must pay the HST in the participating provinces of Newfoundland and Labrador, Nova Scotia, New Brunswick, Ontario and Prince Edward Island.
- d. The Contractor is not exempt from paying PST under the above Exemption Licence Numbers or Exemption Certification. The Contractor must pay the PST on taxable goods or services used or consumed in the performance of the Contract (in accordance with applicable provincial legislation), including material incorporated into real property.

3. Changes to Taxes and Duties

If there is any change to any tax or duty payable to any level of government in Canada after the bid submission date that affects the costs of the Work to the Contractor, the Contract Price will be adjusted to reflect the increase or decrease in the cost to the Contractor. However, there will be no adjustment for any change that increases the cost of the Work to the Contractor if public notice of the change was given before bid submission date in sufficient detail to have permitted the Contractor to calculate the effect of the change on its cost. There will be no adjustment if the change takes effect after the date required by the Contract for delivery of the Work.

4. GST or HST

The estimated GST or HST, if applicable, is included in the total estimated cost on page 1 of the Contract. The GST or HST is not included in the Contract Price but will be paid by Canada as provided in the Invoice Submission section above. The Contractor agrees to remit to Canada Revenue Agency any amounts of GST and HST paid or due.

5. Tax Withholding of 15 Percent

Pursuant to the *Income Tax Act*, 1985, c. 1 (5th Supp.) and the *Income Tax Regulations*, Canada must withhold 15 percent of the amount to be paid to the Contractor in respect of services provided in Canada if the Contractor is a non-resident unless the Contractor obtains a valid waiver. The amount withheld will be held on account for the Contractor in respect to any tax liability which may be owed to Canada.

11 Payment Period

1. Canada's standard payment period is thirty (30) days. The payment period is measured from the date an invoice in acceptable form and content is received in accordance with the Contract or the date the Work is delivered in acceptable condition as required in the Contract, whichever is later. A payment is considered overdue on the 31st day following that date and interest will be paid automatically in accordance with the section 13.
2. If the content of the invoice and its substantiating documentation are not in accordance with the Contract or the Work is not in acceptable condition, Canada will notify the Contractor within fifteen (15) days of receipt. The 30-day payment period begins upon receipt of the revised invoice or the replacement or corrected Work. Failure by Canada to notify the Contractor within fifteen (15) days will only result in the date specified in subsection 1 to apply for the sole purpose of calculating interest on overdue accounts.

12 Interest on Overdue Accounts

1. For the purpose of this section:

"Average Rate" means the simple arithmetic mean of the Bank Rates in effect at 4:00 p.m. Eastern Time each day during the calendar month immediately before the calendar month in which payment is made;

"Bank Rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association;

"date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada to pay any amount under the Contract;

an amount becomes "overdue" when it is unpaid on the first day following the day on which it is due and payable according to the Contract.

2. Canada will pay to the Contractor simple interest at the Average Rate plus 3 percent per year on any amount that is overdue, from the date that amount becomes overdue until the day before the date of payment, inclusive. The Contractor is not required to provide notice to Canada for interest to be payable.
3. Canada will pay interest in accordance with this section only if Canada is responsible for the delay in paying the Contractor. Canada will not pay interest on overdue advance payments.

13 Audit

The amount claimed under the Contract is subject to government audit both before and after payment is made. The Contractor must keep proper accounts and records of the cost of performing the Work and keep all documents relating to such cost for six (6) years after it receives the final payment under the Contract.

14 Compliance with Applicable Laws

1. The Contractor must comply with all laws applicable to the performance of the Contract. The Contractor must provide evidence of compliance with such laws to Canada at such times as Canada may reasonably request.
2. The Contractor must obtain and maintain at its own cost all permits, licenses, regulatory approvals and certificates required to perform the Work. If requested by the Contracting Authority, the Contractor must provide a copy of any required permit, license, regulatory approvals or certificate to Canada.

15 Liability

The Contractor is liable for any damage caused by the Contractor, its employees, subcontractors, or agents to Canada or any third party. Canada is liable for any damage caused by Canada, its employees or agents to the Contractor or any third party. The Parties agree that no limitation of liability or indemnity provision applies to the Contract unless it is specifically incorporated in full text in the Articles of Agreement. Damage includes any injury to persons (including injury resulting in death) or loss of or damage to property (including real property) caused as a result of or during the performance of the Contract.

16 Government Property

The Contractor must take reasonable and proper care of all Government Property while it is in its possession or subject to its control. The Contractor is responsible for any loss or damage resulting from its failure to do so other than loss or damage caused by ordinary wear and tear.

17 Amendment

To be effective, any amendment to the Contract must be done in writing by the Contracting Authority and the authorized representative of the Contractor.

18 Assignment

1. The Contractor must not assign the Contract without first obtaining the written consent of the Contracting Authority. Any assignment made without that consent is void and will have no effect. The assignment will be effective upon execution of an assignment agreement signed by the Parties and the assignee.

 - b. the Cost to the Contractor plus a fair and reasonable profit for all work terminated by the termination notice before completion; and
 - c. all costs incidental to the termination of the Work incurred by the Contractor but not including the cost of severance payments or damages to employees whose services are no longer required, except wages that the Contractor is obligated by statute to pay.
3. Canada may reduce the payment in respect of any part of the Work, if upon inspection, it does not meet the requirements of the Contract.
4. The total of the amounts, to which the Contractor is entitled to be paid under this section, together with any amounts paid, due or becoming due to the Contractor

must not exceed the Contract Price. The Contractor will have no claim for damages, compensation, loss of profit, allowance arising out of any termination notice given by Canada under this section except to the extent that this section expressly provides. The Contractor agrees to repay immediately to Canada the portion of any advance payment that is unliquidated at the date of the termination.

22 Right of Set-off

1.3 Introduction

DFO's Canadian Coast Guard sector requires services related to the provision of placing, maintaining and lifting buoys through local contractors.

1.4 Objectives of the Requirement

The Canadian Coast Guard, Marine Navigation Services establishes aids to navigation that assist vessels to navigate safely through our waterways. The program benefits pleasure craft, fishing and commercial vessels, and ensures the public's right to navigate. Canadian Coast Guard (CCG) Marine Services (MS) is mandated to keep waters accessible by providing aids to navigation, developing waterways, and protecting navigable waters.

The Canadian Coast Guard is contracting out for the provision of placing, lifting/removal; maintaining and servicing of the following buoys as per the attached documents.

General Description of the Work:

- Contractor is required to provide their own vessel to complete this requirement
- Place buoys on position in accordance with navigational requirements using DGPS when required (seasonal or year-round);
- Maintain position and operation;
- Change lanterns as required
- Lift/remove/change buoys as required.

2.0 Requirements

2.1 Tasks, Activities, Deliverables and Milestones

Upon award of call-up (contract) the contractor is required to inspect all buoys and equipment listed in the Schedule of Rates reporting any discrepancies/defects to the Project Authority.

Following initial inspection, the Contractor shall respond to all discrepancies/outages regarding buoys once notified of the outage and report plan to respond to the Aids to Navigation Operation Office/Project Authority.

The Contractor shall inspect all buoys after periods of abnormally bad weather, ice conditions, etc., if the Contractor has reason to believe the buoys in his/her area may have been adversely affected, to determine that they are in their correct positions and that the lights etc. are functioning.

Buoy positions shall be checked using the methods provided on the Buoy Data Sheets.

The Contractor shall change components as necessary to maintain the operation of the lights and buoys including removing old and replacing new components such as lanterns, moorings and reflective material.

Should a buoy be removed from a contract area permanently an amendment will be issued to the contractor reducing the amount of the call-up. Likewise, should a buoy be added to a contract area an amendment will be issued increasing the amount of the call-up. Amounts will be based on bids submitted by the contractors.

In the 2nd option year or fourth year of standing offer, if exercised, the contractor is responsible for checking all buoys in their area for position and operation and will be required to provide reports to the Aids to Navigation Operations Officer. These checks will have to be done in the last 30 days of the end of the standing offer.

2.2 Specifications and Standards

At the beginning of each navigation season, the contractor shall place the seasonal buoys on their advertised position and ensure the work is complete prior to the commencement of navigation and/or fishing season for the local area and that the buoys remain in service until the end of the navigation season as indicated on the Buoy Data Sheet.

At the end of the navigation season, the Contractor shall lift the seasonal buoys and store them in a suitable location (secure area free from damage / vandalism) for the winter.

The seasonal lanterns must be removed from the buoys in the fall and stored in a suitable dark storage area so that the batteries don't completely discharge. The contractor shall ensure darkness is constant during the storage stage. The lantern must be placed in sunlight 2 weeks before installation on the buoy in the spring to allow for re-charge.

The Contractor shall, as part of this Contract, lift, remove, land, or replace in proper position buoys that require repairs, renewal or re-positioning as often as is necessary. If any buoy and/or its mooring are lost and not recoverable by the Contractor, the Contractor shall immediately notify the Aids to Navigation Operations Officer by fax, telephone or e-mail.

The Contractor shall bring to the attention of the Aids to Navigation Operations Officer any buoy repairs which the Contractor considers necessary but does not consider normal under this standing offer and that have not been caused through neglect by the Contractor. The Contractor shall also report whether such repairs can be done locally. The Aids to Navigation Senior Officer shall determine in consultation with the Contractor and others whether such work is outside of the scope of this standing offer. Normal discrepancies include but are not restricted to: retrieval of beached/adrift buoys, buoys off/gone from position, buoys submerged, lantern malfunction/extinguished.

All replaced components including lanterns, moorings, stones and buoys are to be returned to Coast Guard. Notification to the Aids to Navigation Operations Officer is necessary in order to schedule the return of the equipment.

2.3 Technical, Operational and Organizational Environment

Technical Tasks are defined in the following documents:

- Conditions for the use of DGPS
- Primary Positioning Methods

2.4 Method and Source of Acceptance

Each and every time a contractor makes a visit to a buoy, a Buoy Service Report (paper or electronic) must be submitted to the Aids to Navigation Office within 30 days of the visit, whether it be for a check, discrepancy response, lift or place. Failure to provide these reports results in payment delays.

2.5 Reporting Requirements

The Contractor shall notify the Aids to Navigation Operations Officer of a discrepancy (eg. outage, off-position etc.) as soon as possible or within 24 hrs. The Contractor shall provide an estimated time to complete the repair, if it cannot be done immediately, and a reason for any delays.

In the event that the contractor is made aware of a discrepancy outside of normal working hours, he/she shall report the discrepancy to the Sydney Operations Center at **1 (800) 686-8676**. The contractor shall also contact the Aids to Navigation Operations Officer when normal working hours resume, advising of the outage and plan of action for restoration of the service.

The Contractor must advise the Aids to Navigation Operations Officer when the aid has been restored to full operation.

2.6 Change Management Procedures

The Contracting Authority is responsible for the management of the standing offer and any changes to the standing offer must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of any Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

The Project Authority is the representative of the department or agency for whom the work is being carried out under any Contract and is responsible for all matters concerning the technical content of the Work under the any Contract. Technical matters may be discussed with the Project Authority; however the Project Authority has no authority to authorize changes to the scope of the work.

BUOY POSITIONING METHODS

1. Differential Global Positioning System (DGPS) in conjunction with Depth Soundings shall be used by contractors to position buoys. (See conditions for the use of DGPS.)
2. In areas where the DGPS signal is not available or in fringe areas where the signal is of poor quality, GPS in conjunction with Depth Soundings may be used for positioning buoys.

Mariners may use one or more of the following methods in conjunction with depth soundings to supplement or confirm electronically derived positions if necessary:

- a) Two or more horizontal sextant angles between suitably located objects ashore. It is preferred to use two sextants with angles being read simultaneously. Where practical, angles should be continued around the horizon to ensure accurate 360 degree as possible.
- b) Two fixed objects in line (a range) and an adjacent horizontal angle from the line to a third object ashore. The objects may be natural or man-made. The objects in line should be a considerable distance apart and the angle of cut should be between 30 and 150 degrees and as near 90 degrees as possible.
- c) Two fixed ranges, natural or otherwise. The angle of cut should be between 30 and 150 degrees and as near 90 degrees as possible.
- d) True bearings of at least three charted, conspicuous and suitably placed objects ashore. The subtended angles should be between 30 and 150 degrees and as near 90 degrees as possible and should be applied to and plotted with station pointers as a check on the lines of bearings laid off on the chart.

Note: Methodology for establishing a position in a marine environment will rely on the mariners' judgment, knowledge, experience and all practical means at his/her disposal to derive an accurate position under varying conditions.

CONDITIONS FOR THE USE OF DGPS

Recommended Practices:

- 1) The contractor shall ensure the DGPS receiver is operating properly prior to positioning an aid to navigation.
- 2) Before positioning buoys, DGPS should be set up at a known location eg. several readings at the wharf where the vessel docks, to verify current position. This should also be done after positioning buoys to ensure the integrity of positioning information.
- 3) When positioning buoys, marker buoys should be used and positions should be taken from four quadrants on the buoy to verify positions.
- 4) DGPS shall not be used to position an aid to navigation when an unhealthy or unmonitored signal is received. The receiver should have an audio and visual alarm to warn the operator when the DGPS corrections are not being received.
- 5) DGPS data shall be recorded on a buoy service record (BSR).
- 6) DGPS shall not be used when the age of pseudo-range corrections exceeds 30 seconds.
- 7) The DGPS receiver's datum selection must be set at WGS-84(default value).
- 8) The Horizontal dilution of precision (PDOP) reading shall be above 0 and less or equal to 5.0. A reading of 0 indicates that the system is not functioning properly.
- 9) While positioning aids, the DGPS mode in the receiver shall not be set to automatic..
- 10) The selection of the Differential Beacon shall be as follow:
 1. Locked on to the closest beacon from the aids to navigation being placed or positioned.
 2. Do not use a beacon outside its advertised coverage zone.
- 11) While positioning an aid, the DGPS receiver shall be in the 3 dimensional (3 D) mode.
(minimum 4 Sat's and PDOP = 0.1 to 5

Recommended Default Settings on the DGPS Receivers:

- 1) The mask angle shall be set equal or greater than $7,5^{\circ}$. For receivers that accept even increments of 5, a value of 10° would be acceptable.
- 2) The data transfer rate shall be set for 200 bits per second when using a Canadian reference station.

Technical requirements on DGPS receivers:

- 1) All reputable DGPS Navigation receivers will provide the required features to use in an acceptable manner when positioning buoys.
- 2) The position coordinates shall display a minimum of 3 decimal digits of a minute.

3. The Protection and Indemnity insurance policy must include the following:

ADDITIONAL VESSEL CONDITIONS

8. The Contractor, by these presents, does hereby remise, release and forever discharge Her Majesty and all employees of Her Majesty from all manners of action, claims or demands, of whatever kind or nature that the Contractor ever had, now has or can, shall or may hereafter have by reason of damage to or personal injury, or both as a result of or in any way arising out of the acts or omission of Her Majesty or employees of Her Majesty pursuant to the terms and conditions of the Agreement or any Contract.
9. The Contractor acknowledges and agrees that this Agreement or any Contract shall in no way replace, substitute or derogate from any of the rights powers if Her Majesty pursuant to the Fisheries Act of Canada or any other statute, law or regulation of Canada.
