Amendment 009 is raised to answer bidders' questions, extend the closing date, and to post a consolidated version of the RFSO that includes all changes made via questions and answers.

No further questions will be accepted regarding this RFP.

The revised closing date is February 23, 2016.

Questions and answers

Q1:

E.1 Pages 40 to 64

Given the substantial and significant changes to the General Mandatory Requirements, General Point Rated Requirements and the Mandatory Technical Evaluation Criteria for each Category, will Canada be issuing revised schedules to be completed by all Bidders?

A1:

Yes, Canada will be issuing revised schedules containing all changes reflective of the bidders questions and answers. See the revised RFSO document below.

Q2:

This is the original question:

Q12) In the category Mid volume Production Document Scanner with flatbed, there is a specification which states: Integrated A3 FlatBed scanning. The term integrated can mean different things to different people. Our Flatbed is integrated into the scanning device that would be quoted in this category. It is atethered device via USB. There is a 5 foot cable that is attached to the scanner and the scanner automatically determines if the paper is in the Automatic Document Feeder or if it is on the flatbed. The device can be placed anywhere within the range of the scanner. I would hope that is satisfactory for the specification. Please respond.

A12) Unfortunately No

Follow up question:

I am hoping the government can provide a clearer answer to this question, as opposed to "Unfortunately No". The product we would like to bid is exactly the same as that of our competitors, other than design. They decided to build an A3 Flat-Bed into their low volume production scanner as one complete unit. Our company made a decision to provide a number of options for our customers (to provide an A3 flat-bed scanner or an A4 Flat-bed scanner, or a smaller Book Edge flat Bed...). A customer can decide which of the configurations they would like to acquire (or could opt to not purchase a flat-bed scanner). Your client has requested that it be built in, however, there is absolutely no difference in performance, or capabilities. The unit sits right beside the auto feeder, so this is simply a design difference, not a performance or functionality difference. There is no additional space required for the A3 Flat Bed, as it can be directly adjacent to the Auto Fed scanner. I really hope the government will consider adjusting this specification. There is no advantage to having the flat bed built in or attached.

Answer: The term "integrated" designates a device that does not need additional external modules that cannot be attached to the device itself in order to meet the requirements. Also, an additional module connected to the device by a wire or wirelessly will not be accepted because the scanner must fit on a

work surface of 30 inches x 60 inches that must also contain a computer, a computer screen (24 inches minimum) and all the related equipment to operate the computer (mouse, keyboard, etc.).

A2: The criteria for a build-in flat bed is an operational requirement as the pre-existing work area footprint limits the surface area that can be used in production. Due to these operational constraints the government requires a device which does not necessitate external components to meet the specification.

Q3:

Can you please clarify if this Supply Arrangement intends to offer bidders protection against exchange fluctuations? (i.e inclusion and intent of clause 3.1.2 Exchange Rate Fluctuation C3011T (2013-11-06).

We are looking for the ability to mitigate our risk by having Canada assume the risks and benefits of exchange rate fluctuations? Essentially the bidder would have the total price paid by Canada adjusted up or down based on currency fluctuations. Given this is a 3 year SO with 2 option years and the current fluctuation of the Cdn dollar, this would provide better pricing and more competition for the crown.

A3: No, requests for exchange rate fluctuation risk mitigation will not be considered.

Q4: Reference: Amendment 003, A8)

When you refer to TIFF Native are you referring to a bitonal (ie. Black & white) image in a proper TIFF format and/or are you referring to a colour image that is wrapped with a TIFF header?

A4. No, we want to be able to generate an image right away in TIFF format and not to be wrapped with a TIFF header.

Q5: Reference: Amendment 003, A11) and Amendment 004 A7)

What fonts are required to be read by zonal OCR? For example, for financial documents the fonts that are normally used are OCR/A, OCR/B and E13B.

A5. The fonts you are referring to are satisfactory.

Q6: Reference: Amendment 006, A3)

Would PWGSC be willing to do a lease through one of our leasing partners, or would it have to be direct through our organization?

A6: No, PWGSC will only lease from the standing offer holder, not a third party leasing company. Invoicing must be done by the standing offer holder, not a third party.

Q7: M1-18 and M2 -18 Modular Vacuum Conveyor Track

Although PWGSC announced that Category 2 does not have to be a flat paper path, I did not see anything indicating the scanner bid does not have to meet the Modular Vacuum Conveyor Track.

Please let me know if this is changed or removed as well.

A7: For category 1, flat paper path, the Modular Vacuum Convoyer Track is a mandatory criterion. For category 2, flat paper path, the Modular Vacuum Convoyer Track is a mandatory criterion but for the C or J shape path, the Modular Vacuum Convoyer Track criterion will be removed.

Q8: The question has to do with Ethernet connectivity:

In the latest amendment, someone asked whether USB connectivity would be acceptable versus Ethernet. PWGSC said no to USB. There is no reason for a specification asking for Ethernet connectivity. The connectivity via Ethernet is from a PC (that is attached to the Scanner) and not directly from the scanner to the network. The specification should say must include a PC, as well as the Capture software, or does not require a PC, as the end client will be providing their own. Acquiring your own PC means that you will not be paying an inflated price for a PC from a scanner manufacturer.

We can provide Capture Software that can be installed on a PC and thus the Ethernet connectivity would be met (from the PC). We need to understand whether this meets the specification.

A8: For categories 3-11, USB connectivity or Network will be accepted. For categories 1-2 a network connection is required since we require the scanner to interface directly with our Network.

Consolidated version of the RFSO document – This supersedes any previous versions of the RFSO.

PART 1 - GENERAL INFORMATION

1.1 Introduction

The Request for Standing Offers (RFSO) is divided into six parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Offeror Instructions: provides the instructions applicable to the clauses and conditions of the RFSO;
- Part 3 Offer Preparation Instructions: provides offerors with instructions on how to prepare their offer to address the evaluation criteria specified;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria which must be addressed in the offer, and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided;
- Part 6 6A, Standing Offer, and 6B, Resulting Contract Clauses:
6A, includes the Standing Offer containing the offer from the Offeror and the applicable clauses and conditions;
6B, includes the clauses and conditions which will apply to any contract resulting from a call-up made pursuant to the Standing Offer.

The Annexes include:

- Annex A – Requirement
- Annex B – Basis of Payment
- Annex C – Environmental Requirements,
- Annex D – Reporting Requirements,
- Annex E – Evaluation and Basis of Selection
- Annex F – OEM Certification Form

1.2 Summary

The Document Imaging Solutions Centre (DISC), which is part of Cheque Redemption Control Directorate (CRCD) of the department of Public Works and Government Services Canada (PWGSC), provides imaging solutions to various departments and agencies. DISC is located in Matane, Quebec and has a satellite office in Winnipeg, Manitoba.

This requirement is to supply (purchase and lease) PWGSC with different types of scanners within the next three years. CRCD will require various types of scanners to meet its requirements. CRCD anticipates a requirement for eleven (11) different categories of scanners.

As per the Integrity Provisions under section 01 of Standard Instructions 2006 and 2007, offerors must provide a list of all owners and/or Directors and other associated information as required. Refer to section 4.21 of the Supply Manual for additional information on the Integrity Provisions.

The requirement is subject to the provisions of the World Trade Organization Agreement on Government Procurement (WTO-AGP), the North American Free Trade Agreement (NAFTA), and the Agreement on Internal Trade (AIT).

1.3 Security Requirements

There is no Security Requirement associated with this requirement.

1.4 Debriefings

Offerors may request a debriefing on the results of the request for standing offers process. Offerors should make the request to the Standing Offer Authority within 15 working days of receipt of the results of the request for standing offers process. The debriefing may be in writing, by telephone or in person.

PART 2 - OFFEROR INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the Request for Standing Offers (RFSO) by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Offerors who submit an offer agree to be bound by the instructions, clauses and conditions of the RFSO and accept the clauses and conditions of the Standing Offer and resulting contract(s).

The 2006 (2015-07-03) Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the RFSO.

Subsection 5.4 of 2006, Standard Instructions - Request for Standing Offers - Goods or Services - Competitive Requirements, is amended as follows:

Delete: 60 days
Insert: 180 days

2.2 Submission of Offers

Offers must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the Request for Standing Offers.

Due to the nature of the Request for Standing Offers, transmission of offers by facsimile to PWGSC will not be accepted.

2.3 Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than 14 calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all offerors. Enquiries not submitted in a form that can be distributed to all offerors may not be answered by Canada.

2.4 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Quebec.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the offerors.

PART 3 - OFFER PREPARATION INSTRUCTIONS

3.1. Offer Preparation Instructions

Canada requests that offerors provide their offer in separately bound sections as follows:

- Section I: Technical Offer (2 hard copies)
Section II: Financial Offer (1 hard copy)
Section III: Certifications (1 hard copy)

Prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
(b) use a numbering system that corresponds to that of the Request for Standing Offers.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, Offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work in Accordance with Annex A - Requirement.

Section II: Financial Offer

Offerors must submit their financial offer in accordance with the Annex B, Basis of Payment. The total amount of Applicable Taxes must be shown separately.

3.1.1 Payment by Credit Card

Canada requests that offerors complete one of the following:

- (a) Government of Canada Acquisition Cards (credit cards) will be accepted for payment of call-ups against the standing offer.
The following credit card(s) are accepted:
VISA _____
Master Card _____

- (b) Government of Canada Acquisition Cards (credit cards) will not be accepted for payment of call-ups against the standing offer.

The Offeror is not obligated to accept payment by credit card. Acceptance of credit cards for payment of call-ups will not be considered as an evaluation criterion.

3.1.2 Exchange Rate Fluctuation

[C3011T \(2013-11-06\), Exchange Rate Fluctuation,](#)

Section III: Certifications

Offerors must submit the certifications required under Part 5.

3.2 Multiple Offers

- (a) Multiple Offers by the same Offeror will not be accepted. If the Offeror submits multiple Offers, the Offeror will be asked to withdraw all but one of its Offers; or all Offers in their entirety. In the event that the Offeror refuses to withdraw all but one Offer, Canada may, at its discretion, choose to accept only the Offer which it feels provides the Best Value to Canada.
- (b) Hardware must be offered by category. The Offeror must offer a maximum of one (1) Hardware product per category. Offerors are not required to propose a product in every category.
- (c) If more than one offeror offers the identically equipped Hardware in the same sub-category, only the lowest priced responsive Offer will receive a standing offer in that category.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- a. Offers will be assessed in accordance with the entire requirement of the Request for Standing Offers including the technical and financial evaluation criteria.
- b. An evaluation team composed of representatives of Canada will evaluate the offers.

4.1.1 Technical Evaluation

Offers will be evaluated in accordance with Annex E "Evaluation and Basis of Selection"

4.1.1.1 Mandatory Technical Criteria

Refer to Annex E "Evaluation and Basis of Selection".

4.1.1.2 Point Rated Technical Criteria

Refer to Annex E "Evaluation and Basis of Selection".

4.1.2 Financial Evaluation

Offers will be evaluated in accordance with Annex E "Evaluation and Basis of Selection"

4.1.2.1 SACC Manual Clause M0220T (2013-04-25), Evaluation of Price

The price of the offer will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

4.2 Basis of Selection

4.2.1 Basis of Selection

Refer to Annex E "Evaluation and Basis of Selection".

PART 5 - CERTIFICATIONS

Offerors must provide the required certifications and associated information to be issued a standing offer.

The certifications provided by offerors to Canada are subject to verification by Canada at all times. Canada will declare an offer non-responsive, will have the right to set-aside a standing offer, or will declare a contractor in default in carrying out any of its obligations under any resulting contracts, if any certification made by the Offeror is found to be untrue whether made knowingly or unknowingly during the offer evaluation period, during the Standing Offer period, or during the contract period.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Standing Offer Authority may render the Offer non-responsive, may result in the setting aside of the Standing Offer or constitute a default under the Contract.

5.1 Certifications Required with the Offer

Offerors must submit the following duly completed certifications as part of their offer.

5.1.1 Declaration of Convicted Offences

As applicable, pursuant to subsection Declaration of Convicted Offences of section 01 of the Standard Instructions, the Offeror must provide with its offer, a completed [Declaration Form](http://www.tpsgc-pwgsc.gc.ca/ci-if/formulaire-form-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ci-if/formulaire-form-eng.html>), to be given further consideration in the procurement process.

5.2 Certifications Precedent to the Issuance of a Standing Offer and Additional Information

The certifications and additional information listed below should be submitted with the offer, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Standing Offer Authority will inform the Offeror of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the offer non-responsive.

5.2.1 Integrity Provisions – List of Names

Offerors who are incorporated, including those submitting offers as a joint venture, must provide a complete list of names of all individuals who are currently directors of the Offeror.

Offerors submitting offers as sole proprietorship, as well as those submitting offers as a joint venture, must provide the name of the owner(s).

Offerors submitting offers as societies, firms or partnerships do not need to provide lists of names.

5.2.2 Federal Contractors Program for Employment Equity - Standing Offer Certification

By submitting an offer, the Offeror certifies that the Offeror, and any of the Offeror's members if the Offeror is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml)" list (http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml) available from [Employment and Social Development Canada-Labour's](#) website.

Canada will have the right to declare an offer non-responsive, or to set-aside a Standing Offer, if the Offeror, or any member of the Offeror if the Offeror is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](#)" list at the time of issuing of a Standing Offer or during the period of the Standing Offer.

5.2.3 Additional Certifications Precedent to Issuance of a Standing Offer

5.2.3.1 OEM Certification

- a. Any offeror that is not the Original Equipment Manufacturer (OEM) for every item of hardware proposed as part of its bid is required to submit the OEM's certification (Annex F) regarding the offeror's authority to provide and maintain the OEM's hardware, which must be signed by the OEM (not the offeror). No standing offer will be awarded to an offeror who is not the OEM of the hardware it proposes to supply to Canada, unless the OEM certification has been provided to Canada. Offerors are requested to use the OEM Certification Form included with the bid solicitation. Although all the contents of the OEM Certification Form are required, using the form itself to provide this information is not mandatory. For offerors/OEMs who use an alternate form, it is in Canada's sole discretion to determine whether all the required information has been provided. Alterations to the statements in the form may result in the offer being declared non-responsive.
- b. If the hardware proposed by the offeror originates with multiple OEMs, a separate OEM certification is required from each OEM.
- c. For the purposes of this bid solicitation, OEM means the manufacturer of the hardware, as evidenced by the name appearing on the hardware and on all accompanying documentation.

5.2.3.2 Electrical Certifications

All document scanners offered must be certified or approved for use in accordance with the Canadian Electrical Code, Part 1, by a certification organization accredited by the Standards Council of Canada (SCC) and bear the certification logo that is applicable to the accredited agency.

PART 6 - STANDING OFFER AND RESULTING CONTRACT CLAUSES

A. STANDING OFFER

6.1 Offer

6.1.1 The Offeror offers to fulfill the requirement in accordance with the Requirement at Annex "A".

6.2 Security Requirements

There is no Security Requirement associated with this requirement.

6.3 Standard Clauses and Conditions

All clauses and conditions identified in the Standing Offer and resulting contract(s) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

6.3.1 General Conditions

[2005 \(2015-07-03\) General Conditions - Standing Offers - Goods or Services, apply to and form part of the Standing Offer.](#)

6.3.2 Standing Offers Reporting

The Offeror must compile and maintain records on its provision of goods, services or both to the federal government under contracts resulting from the Standing Offer. This data must include all purchases, including those paid for by a Government of Canada Acquisition Card.

The Offeror must provide this data in accordance with the reporting requirements detailed in Annex "D". If some data is not available, the reason must be indicated. If no goods or services are provided during a given period, the Offeror must still provide a "nil" report.

The data must be submitted on a quarterly basis to the Standing Offer Authority.

The quarterly reporting periods are defined as follows:

- 1st quarter: April 1 to June 30;
- 2nd quarter: July 1 to September 30;
- 3rd quarter: October 1 to December 31;
- 4th quarter: January 1 to March 31.

The data must be submitted to the Standing Offer Authority no later than fifteen calendar days after the end of the reporting period.

6.4 Term of Standing Offer

6.4.1 Period of the Standing Offer

The period for making call-ups against the Standing Offer is from _____ to _____.
[Three year period to be inserted at Standing Offer award.]

6.4.2 Extension of Standing Offer

If the Standing Offer is authorized for use beyond the initial period, the Offeror offers to extend its offer for two additional one year periods under the same conditions and at the rates or prices specified in the Standing Offer, or at the rates or prices calculated in accordance with the formula specified in the Standing Offer.

The Offeror will be advised of the decision to authorize the use of the Standing Offer for an extended period by the Standing Offer Authority two days before the expiry date of the Standing Offer. A revision to the Standing Offer will be issued by the Standing Offer Authority.

6.5 Authorities

7.5.1 Standing Offer Authority

The Standing Offer Authority is:

Sachin Sobhee, Supply Specialist
Public Works and Government Services, Pacific Region
800 Burrard Street, Vancouver, BC

Telephone: 604-775-7022
Email: sachin.sobhee@pwgsc-tpsgc.gc.ca

The Standing Offer Authority is responsible for the establishment of the Standing Offer, its administration and its revision, if applicable. Upon the making of a call-up, as Contracting Authority, he is responsible for any contractual issues relating to individual call-ups made against the Standing Offer by any Identified User.

6.5.2 Project Authority

The Project Authority for the Standing Offer is:

[To be inserted at Standing Offer award.]

The Project Authority is the representative of the department or agency for whom the Work will be carried out pursuant to a call-up under the Standing Offer and is responsible for all the technical content of the Work under the resulting Contract.

7.5.3 Offeror's Representative

Name: _____

Title: _____

Organization: _____

Address: _____

Telephone: _____

Facsimile: _____

E-mail address: _____

6.6 Identified Users

The Identified User authorized to make call-ups against the Standing Offer is: The Cheque Redemption Control Directorate (CRCD) of the department of Public Works and Government Services Canada (PWGSC).

6.7 Call-up Procedures

An Identified User may issue a Call-up directly to any Offeror in the applicable category, up to \$400,000.00.

6.8 Call-up Instrument

The Work will be authorized or confirmed by the Identified User(s) using form PWGSC-TPSGC 942 Call-up Against a Standing Offer.

6.9 Limitation of Call-ups

Individual call-ups against the Standing Offer must not exceed \$400,000.00 (Applicable Taxes included).

6.10 Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- a) the call up against the Standing Offer, including any annexes;
- b) the articles of the Standing Offer;
- c) the general conditions 2005 (2015-09-03), General Conditions - Standing Offers - Goods or Services
- d) the supplemental general conditions 4001 (2015-04-01), Hardware Purchase, Lease and Maintenance;
- e) for purchase of equipment, the general conditions 2030 (2015-09-03), [General Conditions - Higher Complexity - Goods](#);
- f) for lease of equipment, the general conditions 2035 (2015-07-03), General Conditions – Higher Complexity - Services
- g) Annex A, Requirement;
- h) Annex B, Basis of Payment;
- i) the Offeror's offer dated _____ (*insert date of offer*).

6.11 Certifications

6.11.1 Compliance

The continuous compliance with the certifications provided by the Offeror with its offer and the ongoing cooperation in providing associated information are conditions of issuance of the Standing Offer (SO). Certifications are subject to verification by Canada during the entire period of the SO and of any resulting contract that would continue beyond the period of the SO. If the Offeror does not comply with any certification, fails to provide the associated information, or if it is determined that any certification made by the Offeror in its offer is untrue, whether made knowingly or unknowingly, Canada has the right to terminate any resulting contract for default and set aside the Standing Offer.

6.11.2 Federal Contractors Program for Employment Equity - Setting aside

The Offeror understands and agrees that, when an Agreement to Implement Employment Equity (AIEE) exists between the Offeror and Employment and Social Development Canada (ESDC)-Labour, the AIEE must remain valid during the entire period of the Standing Offer. If the AIEE

becomes invalid, the name of the Offeror will be added to the "[FCP Limited Eligibility to Bid](#)" list. The imposition of such a sanction by ESDC may result in the setting aside of the Standing Offer.

6.12 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____.

B. RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from a call-up against the Standing Offer.

6.1 Statement of Work

The Contractor must provide the items detailed in the call-up against the Standing Offer.

6.2 Standard Clauses and Conditions

6.2.1 General Conditions

For purchase of equipment, 2030 (2015-07-03), [General Conditions - Higher Complexity - Goods, apply to and form part of the Contract.](#)

Section 19 Interest on Overdue Accounts, of 2030 (2015-07-03), [General Conditions - Higher Complexity - Goods](#) will not apply to payments made by credit cards.

For lease of equipment, 2035 (2015-07-03), General Conditions, Higher Complexity – Services, apply to and form part of the Contract.

Section 19 Interest on Overdue Accounts, of 2030 (2015-07-03), [General Conditions - Higher Complexity - Goods](#) will not apply to payments made by credit cards.

6.2.2 Supplemental General Conditions

4001 (2015-04-01), Hardware Purchase, Lease and Maintenance; applies to and form part of the Contract.

6.3 Term of Contract

6.3.1 Delivery Date

For categories 1, 2, and 5, delivery must be made within 90 days from receipt of a call-up against the Standing Offer, unless longer delivery period specified in the call-up.

For categories 3-4 and 6-11, delivery must be made within twenty calendar days from receipt of a call-up against the Standing Offer, unless longer delivery period specified in the call-up.

6.4 Payment

6.4.1 Basis of Payment

For providing the Hardware in accordance with the Contract, Canada will pay the Contractor the firm price(s) set out in Annex B, FOB destination, including all customs duties, Applicable Taxes extra.

6.4.2 Limitation of Price

SACC Manual clause C6000C (2011-05-16) Limitation of Price

6.4.3 Terms of Payment: Single Payment

SACC Manual clause H1000C (2008-05-12) Single Payment

6.4.4 Payment by Credit Card

The following credit cards are accepted: _____.

6.5 Invoicing Instructions

1. The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.
2. Invoices must be distributed as follows:
 - a. The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.

6.6 Insurance

SACC Manual clause G1005C (2008-05-12) Insurance

6.7 Hardware

Purchased Hardware

For purchased hardware, with respect to the provisions of Supplemental General Conditions 4001:

Part III of 4001 applies to the Contract (Additional Conditions: Purchase)	Yes
Part IV of 4001 applies to the Contract (Additional Conditions: Lease)	No
Part V of 4001 applies to the Contract (Additional Conditions: Maintenance)	Yes
Delivery Location	Matane, Quebec; and Winnipeg, Manitoba
Contractor must deliver Hardware Documentation	Despite Section 7(4), only 1 copy of the Hardware Documentation is required.
Contractor must update Hardware Documentation throughout Contract Period	No
Hardware Documentation must include maintenance documentation	No
Language of Hardware Documentation	The Hardware Documentation must be delivered in English and French.
Special Delivery Requirements	No
Special Site Delivery or Installation	No

Solicitation No. - N° de l'invitation
 EN929-150346/A
 Client Ref. No. - N° de réf. du client

Requirements	
Contractor must Install Hardware at time of Delivery	Yes, the contractor must follow the instruction from SSC and support SSC in the installation of the hardware
Contractor must Integrate and Configure Hardware at time of Installation	Yes, included in the unit price of the Hardware for Categories 1 and 2.
Hardware is part of a System	Yes
Availability-level Testing will be performed before Acceptance	Yes, for Categories 1 and 2.
Availability Level Test Period for pre-Acceptance Availability-level Testing	15 days
Who will perform availability-level testing	Canada and the Contractor
Minimum Availability Level for Hardware	90%
Hardware Warranty Period	For categories 1 and 2, despite 4001, the Hardware Warranty Period under Part V is 3 years. For categories 3 to 11, the Hardware Warranty Period is 1 year.
Option to Extend Hardware Maintenance Period	For categories 1, and 2, the Contractor grants Canada in irrevocable option to extend the Hardware Maintenance Period by seven (7) one-year periods. For categories 3 to 11, the Contractor grants to Canada an irrevocable option to extend the Hardware Maintenance Period by two (2) additional one-year periods. These option(s) may only be exercised by the Contracting Authority by notice in writing and will be evidenced, for administrative purposes only, by a contract amendment.
Class of Maintenance Service	On-Site Maintenance Service
Principal Period of Maintenance (PPM)	<u>Categories 1-2</u> Monday – Friday 7am to 5pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours. Monday – Friday 5pm to 10pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours. <u>Categories 3-11</u> Monday – Friday 7am to 5pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours.

Leased Hardware

For leased Hardware, with respect to the provisions of Supplemental General Conditions 4001:

Part III of 4001 applies to the Contract (Additional Conditions: Purchase)	No
Part IV of 4001 applies to the Contract (Additional Conditions: Lease)	Yes
Part V of 4001 applies to the Contract (Additional Conditions: Maintenance)	Yes
Delivery Location	Matane, Quebec; and Winnipeg, Manitoba
Contractor must deliver Hardware Documentation	Despite Section 7(4), only 1 copy of the Hardware Documentation is required.
Contractor must update Hardware Documentation throughout Contract Period	No
Hardware Documentation must include maintenance documentation	No
Language of Hardware Documentation	The Hardware Documentation must be delivered in English and French.
Special Delivery Requirements	No
Special Site Delivery or Installation Requirements	No
Contractor must Install Hardware at time of Delivery	Yes, the contractor must follow the instruction from SSC and support SSC in the installation of the hardware
Contractor must Integrate and Configure Hardware at time of Installation	Yes, included in the unit price of the Hardware for Categories 1 and 2.
Hardware is part of a System	Yes
Availability-level Testing will be performed before Acceptance	Yes, for Categories 1 and 2.
Availability Level Test Period for pre-	15 days

Acceptance Availability-level Testing	
Who will perform availability-level testing	Canada and the Contractor
Minimum Availability Level for Hardware	90%
Lease Period	12, 24, 36, 48, or 60 months, as specified in the call-up.
Option to Extend Lease Period	The Contractor grants to Canada an irrevocable option to extend the Lease Period by 2 one-year periods. These option(s) may only be exercised by the Contracting Authority by notice in writing and will be evidenced, for administrative purposes only, by a contract amendment.
Delivery of Leased Hardware	The Leased Hardware must be delivered by no later than 15 calendar days after the date of the call-up.
Class of Maintenance Service	On-Site Maintenance Service on an on-call basis, as specified in PPM below.
Principal Period of Maintenance (PPM)	<p><u>Categories 1-2</u></p> <p>Monday – Friday 7am to 5pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours.</p> <p>Monday – Friday 5pm to 10pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours.</p> <p><u>Categories 3-11</u></p> <p>Monday – Friday 7am to 5pm: On-site Maintenance Service, 15 minute call-response time, technician on-site within 48 hours.</p>
Toll-free Telephone Number for Maintenance Service	[_____]
Website for Maintenance Service	[_____]

6.8 Purchased and/or Leased Hardware - Simple Software Requirement

The Hardware must be delivered together with any software specified in the Contract or required for the Hardware to function in accordance with the Specifications (the “Licensed Software”). With respect to the Licensed Software:

- a. It must be the current release and, unless otherwise specified, require no further research or development to meet the Specifications;
- b. It must be supported by, and fully compatible with, the Hardware up to the limit of the Hardware’s expansion capability. The Contractor must completely integrate and interface the Licensed Software with the Hardware before acceptance;

-
- c. The Contractor grants a single, perpetual, non-exclusive license to Canada for the Client to use the Licensed Software in accordance with the Contract. This license allows the Client to install, copy, deploy and use the Licensed Software

6.9 Delivery-Specific Deliverable Substitutions of Hardware

- a) If the Contractor is unable to provide a specific item of Hardware ordered under the Contract and wishes to offer a substitute in respect of that order, the Contractor must submit a request to the Contracting Authority together with a certificate that the proposed substitute item meets or exceeds the specification(s) of the existing product being substituted and the price for the substitute product must not exceed:
- i) the firm price (or ceiling price, if applicable) for the product originally offered in the Contractor's bid that resulted in the award of the Contract;
 - ii) the current published list price of the substitute product, minus any applicable Government discount; or
 - iii) the price at which the substitute product is generally available for purchase, whichever is the lowest.
- b) The substitute item must not be shipped until formally authorized by the Contracting Authority after the Technical Authority determines the substitution is acceptable. Whether or not to accept or reject a pro-posed substitution is entirely within the discretion of Canada.
- c) The ability to propose a substitute for a specific delivery does not relieve the Contractor of its obligation to make delivery within the period set out in the Contract, regardless of whether or when the proposed substitution is approved.

6.10 Leased Hardware Expiration, Extension, Termination and Option to Purchase

- (a) Expiration Notice:** The Contractor must notify the Identified User a minimum of ninety (90) days before the expiration date of any lease contract. This reminder will allow for a timely reassessment of the end user's printing and copying requirements.
- (b) Extending the Lease Period:** Where the original Lease Period was 1, 2, 3, or 4 years, Canada may, at its option, through contract amendment, change the Lease Period to a Lease Period of longer duration at any time during the Lease Period, and the total FMR and CPP Rate associated with the revised Lease Period will be applicable to all months of the new Lease Period, including retroactively to those months that the equipment has already been installed, with any overpayment to date to be credited against future costs; but in no event will the recalculated amount to the date of the change exceed the amount already paid. The Installation Date of the new Lease Period must be the same as the installation date of the original.
- (c) Lease Extensions:** Where the original Lease Period was 5 years, Canada may at its option, through Contract Amendment, extend the Lease period for any period between 1 day and two (2) years in accordance with the Lease Extension formula below:

Lease Extension Firm Monthly Rates (FMR):

The FMR for Lease Extensions where the period of extension is between 1 day and one (1) year must not exceed 60% of the original FMR that the Identified User was paying for the 5 year Lease Period.

Where the Lease Extension has exceeded one (1) year, the FMR for the extension period after one year must not exceed 60% of the FMR that the Identified User was paying for the first year of the extension.

- (d) Lease Termination:** Canada may at its option, with two weeks notice, terminate the use of any installed Hardware, where such termination would take effect at the end of the month following the two week notice period subject to the following conditions:
- (e) Lease Termination Fees During a Lease Period:** Where the termination takes place prior to the completion of the applicable Lease Period, then Canada will pay a fixed Termination Fee. The Contractor may choose to, but is not obliged to, waive or reduce this Termination Fee in the event of a subsequent Call-up for new Hardware. In no case will the Termination Fee be added to the new Call-up.

The Termination Fee will be equal to the applicable Adjusted Amount minus the actual amount paid to-date. The Adjusted Amount will be calculated as following:

1. Where the original lease period was 1 year and the actual period of installation was less than 12 months, then the Adjusted Amount will be based on the rates associated with a 1 year lease period multiplied by 12 months.
2. where the original Lease Period was 2, 3, 4 or 5 years and the actual period of installation was less than 24 months, then the Adjusted Amount will be based on the rates associated with a TWO (2) Year Lease Period multiplied by 24 months; but in no event will the Termination Fee exceed the balance of the Firm Monthly Rate that would have been due had the lease not been terminated;
3. where the original Lease Period was 3, 4 or 5 years and where the actual period of installation was less than 36 months, then the Adjusted Amount will be based on the rates associated with a TWO (2) Year Lease Period multiplied by the actual number of months that the equipment was installed; but in no event will the Termination Fee exceed the amount that would have been due for 36 months using the Firm Monthly Rate for a THREE (3) Year Lease Period, or exceed the balance of the Firm Monthly Rate that would have been due had the lease not been terminated.
4. where the original Lease Period was 4 or 5 years and where the actual period of installation was less than 48 months, then the Adjusted Amount will be based on the rates associated with a THREE (3) Year Lease Period multiplied by the actual number of months that the equipment was installed; but in no event will the Termination Fee exceed the amount that would have been due for 48 months using the Firm Monthly Rate for a FOUR (4) YEAR Lease Period or exceed the balance of the Firm Monthly Rate that would have been due had the lease not been terminated.
5. where the original Lease Period was 5 years and where the actual period of installation was less than 60 months, then the Adjusted Amount will be based on the rates associated with a FOUR (4) Year Lease Period multiplied by the actual number of months that the equipment was installed; but in no event will the Termination Fee exceed the balance of the Firm Monthly Rate that would have been due had the Lease Period not been terminated.

- (f) Lease Termination of Hardware during Lease Extension Periods:** Where an installed Hardware is in a Lease Extension period, the Identified User may terminate the contract by providing one (1) months written notice and no Termination Fees will apply. Where an installed Hardware is in a Lease

Extension period, and where the Identified User can show documented evidence of excessive downtime or reduction of functionality, the Contract may be terminated with a minimum of thirty days notice and no Termination Fees will apply.

(g) End-of-Lease Option to Purchase: Offerors may offer the option of an end-of-lease purchase of the installed Hardware, for each of the lease periods. These prices will be ceiling prices posted on the IPMG website and may be negotiated downward if acceptable to the Offeror and Identified User.

The prices quoted for End-of-Lease Purchase options do not form part of the Evaluated Price in the evaluation, although Canada reserves the right to perform a pricing audit on any optional equipment or services and to reject any optional equipment that does not provide good value to Canada.

ANNEX A REQUIREMENT

A.1 Background

The Document Imaging Solutions Centre (DISC), which is part of Cheque Redemption Control Directorate (CRCD) of the department of Public Works and Government Services Canada (PWGSC), provides imaging solutions to various departments and agencies. DISC is located in Matane, Quebec and has a satellite office in Winnipeg, Manitoba. PWGSC integrated document imaging into its own processes for the Receiver General of Canada in 2001 and began delivering solutions to federal departments and agencies in 2003.

DISC has a class leading enterprise document imaging service using experienced public servant employees and state of the art imaging equipment and software. PWGSC specializes in a comprehensive imaging service that includes different components such as: basic conversion of paper records to electronic format, imaged front and back on a single pass, store JPG and TIFF format at the same time, optical character recognition (OCR), indexing and classification, audit trails for evidentiary purposes, creation of a database of record information and integration with client IT systems according to their requirements. Once digitized, clients can access, print or add notes to the correspondence, directly from the user's desktop, through the secured government Intranet or directly from the client application.

Document imaging is a business automation solution for departments and agencies that rely on paper-based processing and want to increase speed of service to Canadians and cut the costs of its operations. DISC offers customized services to meet the broad spectrum of needs of our clients, from complex comprehensive imaging on an ongoing basis to simple one time collection digitization.

DISC expects to process 33.5M pages in fiscal year 2014/2015 and increase 20% of this volume for the next three (3) years. For the FY 2014/2015 this volume will be divided between the two imaging centers, that is to say: 32M pages for Matane and 1.5M pages for Winnipeg.

A.2 Requirement summary

CRCD has a requirement for the lease or purchase of eleven (11) different categories of scanners. All products categories must meet the general requirements provided at section A.3 and specific requirements according to section A.4 of this Annex.

A.3 General Requirements

A.3.1 Products must be brand new machine built from new parts and still serviceable.

-
- A.3.2 For categories 1 and 2, The scanners must have three years warranty and optional support for up to 7 additional years post date of purchase must be available. For categories 3 to 11, the scanners must have one year warranty and optional support for 2 additional years post date of purchase must be available.
- A.3.3 Offeror must provide on-site set up, training and assistance customizing software.
- A.3.4 The scanners must meet the following network requirements:
- a. Windows 7 compatible (32 and 64 bits)
 - b. For categories 3-11, USB connectivity or Network will be accepted. For categories 1-2 a network connection is required.
 - c. Compatible with Windows server 2008 and 2012 (32 and 64 bits)
- A.3.5 Offeror must provide the following on-site training in Matane, Quebec and Winnipeg, Manitoba as scheduled with PWGSC:
- a. IT Operations training, provided in French and English, including, but not limited to preventive maintenance, monitoring, troubleshooting, and performance tuning
 - b. Basic maintenance training, provided in French or English (as required by the client), including, but not limited to technician on the various type of maintenance, replacement of worn parts and customer service via telephone. Customer support in French via email is acceptable.
 - c. Operations training, provided in French and English, including, but not limited to user training on the various Software Solution functions.
- A.3.6 Offeror must provide upon request the following implementation and installation services: On-site technical resource(s) in Matane and Winnipeg at the CRCD facility to perform the product installation.
- A.3.7 Offeror must provide authorized PWGSC users with access to the offeror's incident tracking and reporting system that will provide status on PWGSC logged incidents.
- A.3.8 The following documentation must be delivered with the scanners in hard copy and soft/electronic copies:
- a. A complete set of documentation including all publications pertaining to technical specifications, software related documentation installation requirements, configuration, parts manual, administration and operating instructions;
 - b. Bilingual (French and English) non-technical end user operational documentation related to the day-to-day operations.
- A.3.9 The scanners components must execute on and support the following Operating Systems, including, but not limited to Microsoft Windows 7 Enterprise Edition 32 Bits and subsequent releases.

A.3.10 The scanners components must execute on and support the following Operating Systems, including, but not limited to Microsoft Windows Server 2008 R2 Edition 64 Bits and subsequent releases.

A.3.11 Offeror must provide TWAIN and/or ISIS drivers for categories 3, 4, 7, and 8

A.3.12 Offeror must provide basic software to manage the scanner.

A.4 Table deleted – See annex E for complete specifications.

A.5 Estimated Quantities Required

Category	Scanner Type	Description	Estimated quantities
1	Very High Volume Production Doc Scanner with TIFF Native	High speed/ high volume document scanner (TIFF Native) Open track	4
2	Very High Volume Production Document Scanner	High speed/ high volume document scanner Open track	5
3	Mid Volume Production Document Scanner with flatbed	Duplex et large format (11 x 17) with flatbed	20
4	Mid Volume Production Document Scanner with feeder	With continuous paper processing functionality	2
5	Production Scanner with integrated mail opening and extraction	One-step scanning platform engineered High-speed mailroom automation and document imaging Stack feeding capability of up to 700 sheets of paper (or better)	7
6	Book scanner		2
7	Wide Format Duplex Scanner (36 inches)	Large format 36 in.	7
8	Wide Format Scanner (46 up to 54 inches)	Large format 46 up to 54 in.	2
9	Microfiches and microfilm Scanner (dual function)	Dual Capability of scanning both types of documents (standard fiche formats and custom sizes up to 5 x 8 inches and 16 mm microfilms)	2
10	Microfiches Scanner	The scanner must handle all standard fiche formats and custom sizes up to 5 x 8 inches	1

**ANNEX B
 BASIS OF PAYMENT**

The scanner purchase price and lease rates for each category must include all parts and accessories and required to meet the specifications as detailed in Annex A, "Requirements". Offerors must propose a price/rate (as applicable) for each item listed in the tables below.

All prices are DDP Destination (Incoterms 2000), including all applicable fee, excluding taxes.

All unit prices must be inclusive of any provincial electronic disposal surcharge.

B.1 Very High Volume Production Document Scanner with TIFF Native

ANNEX C

Environmental Requirements

The following is a summary of the mandatory environmental certifications and programs required by all Offerors or document scanners offered under this Standing Offer.

C1. Environmental Standards

In support of the Government of Canada's Federal Sustainable Development Strategy (FSDS) and Policy on Green Procurement, Offerors must commit to comprehensive, nationally recognized environmental standards for:

- (a) The reduction or elimination of environmentally hazardous materials
- (b) Design for reuse and recycling
- (c) Energy efficiency
- (d) End of Life Management for reuse and recycling
- (e) Environmental stewardship in the manufacturing process
- (f) Packaging

C2. Packaging Recycling

The Offeror must currently promote recycling through an established and ongoing packaging recycling program as per the following:

- (a) All materials in which offered products are packaged and shipped must be recyclable.
- (b) The Offeror must take back all packaging from an Identified User's site at the time of document scanner installation.

VAN576
CCC No./N° CCC - FMS No./N° VME

- (c) The Offeror must reuse, recycle or dispose of all packaging materials removed from products delivered under any Call-up in an environmentally sensitive manner.

C3. Future Environmental Programs

Canada reserves the right to accept future individual or comprehensive environmental certifications in the place of one or more of the mandatory certifications, provided such certifications incorporate the equivalent or higher environmental criteria, standards and assessments (e.g. the currently under development IEEE 1680.2 Standard for Environmental Assessment of Imaging Equipment).

REPORTING REQUIREMENTS**

Detailed Report

Standing Offer Number:

Reporting Period: _____ to _____

Order Number	Category	Part Number	Quantity	Date	Value

Quarterly Totals:

\$ _____

**ANNEX E
 EVALUATION PROCEDURES AND BASIS OF SELECTION**

E.1 Technical Evaluation Criteria

In its technical offer, the Offeror must demonstrate how it meets each of the mandatory criteria and point rated criteria specified in the Substantiation of Technical Compliance Tables below.

E.1.2 Substantiation of Technical Compliance Tables

The Offeror must complete the compliance tables below and include the tables in its offer.

The Offeror is advised to address each mandatory and rated requirement in sufficient depth to permit a complete analysis and assessment by the Evaluation Team. The substantiation must not simply be a repetition of the requirement(s), but must explain and demonstrate how the Offeror will meet the requirements and carry out the required work. Simply stating that the Offeror or its proposed solution or product complies is not sufficient. Where Canada determines that the substantiation is not complete, the Offeror may be considered non-compliant and may be disqualified. The substantiation may refer to additional documentation submitted with the offer where Offeror are requested to indicate where in the offer the reference material can be found, including the title of the document, and the page and paragraph numbers; where the reference is not sufficiently precise, Canada may request that the Offeror direct Canada to the appropriate location in the documentation.

Requirement # Sub-Function	Requirement Description	Comply
Contains the letter "M" to denote a Mandatory Requirement, or "R" to denote a point Rated requirement. A sequential number and a descriptive sub-function title.	Describes the Requirement	Offeror's response "Yes or No"
Substantiation		
Statement from the Offeror explaining how the requirement is met. Include relevant narrative and/or documentation to support the statement.		
Reference		
Information on where additional documentation can be found in the bid to support the substantiation.

E2.3 Mandatory Technical Evaluation Criteria for each category

Category 1 - Very High Volume Production Doc Scanner with TIFF Native

The proposed product in Category 1 must meet the following mandatory criteria.

Mandatory Number	Requirements Description	Comply?
M1 – 1	Output images file format (bi-tonal, grayscale or colour image) but not limited to: Jpeg PDF Single and multi-page colour TIFF Native	
	Substantiation	
	Reference	
M1 – 2	Minimum optical output resolution of 150 dpi with a preferred optical resolution of up to 600 dpi (or better)	
	Substantiation	
	Reference	
M1 – 3	The scanner must have a following specification <ul style="list-style-type: none"> • Output of 24 bit colour, 8 bit greyscale (or better) 	
	Substantiation	
	Reference	
M1 – 4	The scanner must have a following specification <ul style="list-style-type: none"> • Multi-feed detection (ultrasonic) 	
	Substantiation	
	Reference	
M1 – 5	The scanner must have a following specification <ul style="list-style-type: none"> • Flat paper path 	
	Substantiation	
	Reference	
M1 – 6	The scanner must have a following specification <ul style="list-style-type: none"> • Choice of stacker (multiple pocket options)/ Multiple trays output 	
	Substantiation	
	Reference	
M1 – 7	The scanner must have a following specification	

Mandatory Number	Requirements Description	Comply?
	<ul style="list-style-type: none"> Image auto rotation 	
	Substantiation	
	Reference	
M1 – 8	The scanner must have a following specification <ul style="list-style-type: none"> Auto-cropping

M9 – 10	The scanners must have : Variable scan speeds	
	Substantiation	
	Reference	
M9 – 11	Autoload platform for microfiche, minimum 200 pages per minute (ppm)	
	Substantiation	
	Reference	

Category 10 - Microfiches Scanner

The proposed product in Category 10 must meet the following mandatory criteria.

Mandatory Number	Requirements Description	Comply?
M10 – 1	Output images file format (bi-tonal, grayscale) Jpeg PDF Single and multi-page TIFF Native	
	Substantiation	
	Reference	
M10 – 2	Minimum optical output resolution of 150 dpi with a preferred optical resolution of up to 600 dpi (or better)	
	Substantiation	
	Reference	
M10– 3	The scanner must have a following specification <ul style="list-style-type: none"> • 8 bit greyscale (or better) 	
	Substantiation	
	Reference	
M10– 4	The scanner must have a following specification <ul style="list-style-type: none"> • Power 120 V maximum 15 Amp 	
	Substantiation	
	Reference	

Mandatory Number	Requirements Description	Comply?
M10 – 5	The scanner must have a following specification <ul style="list-style-type: none"> • Auto-feed and ability to manually feed documents (fiche) 	
	Substantiation	
	Reference	
M10 – 6	The scanner must handles all standard fiche formats and custom sizes up to 5x8inches	
	Substantiation	
	Reference	
M10 – 7	The scanner must scan single fiche scanning and autoloader for unattended scanning	
	Substantiation	
	Reference	
M10- 8	The scanners must have : Variable scan speeds	
	Substantiation	
	Reference	
M10 – 9	Autoload platform for microfiche, minimum 200 pages per minute (ppm)	
	Substantiation	
	Reference	

Category 11 - Microfilm Scanner

The proposed product in Category 11 must meet the following mandatory criteria.

Mandatory Number	Requirements Description	Comply?
M11 – 1	Output images file format (bi-tonal, grayscale) <ul style="list-style-type: none"> Jpeg PDF Single and multi-page TIFF Native 	
	Substantiation	
	Reference	

Mandatory Number	Requirements Description	Comply?
M11 – 2	Minimum optical output resolution of 150 dpi with a preferred optical resolution of up to 600 dpi (or better)	
	Substantiation	
	Reference	
M11– 3	The scanner must have a following specification <ul style="list-style-type: none"> • 8 bit greyscale (or better) 	
	Substantiation	
	Reference	
M11 – 4	The scanner must have a following specification <ul style="list-style-type: none"> • Power 120 V maximum 15 Amp 	
	Substantiation	
	Reference	
M11 – 5	The scanner must have a following specification <ul style="list-style-type: none"> • Auto-feed and ability to manually feed documents (roll film) 	
	Substantiation	
	Reference	
M11– 6	The scanner must scan 16mm roll film	
	Substantiation	
	Reference	
M11- 7	The scanners must have : Variable scan speeds	
	Substantiation	
	Reference	

E3. Financial Evaluation and Calculation of Evaluated Price

Offers will be evaluated on the basis of best value based on the **lowest evaluated price** for each category.

For Categories 1 and 2, the Evaluated Price is calculated as follows:

Solicitation No. - N° de l'invitation
EN929-150346/A
Client Ref. No. - N° de réf. du client
EN929-150346

Amd. No. - N° de la modif.
009
File No. - N° du dossier
VAN-5-38258

Buyer ID - Id de l'acheteur
VAN576
CCC No./N° CCC - FMS No./N° VME

Scanner purchase price +
12 month lease rate x 12 months +
24 month lease rate x 24 months +
36 month lease rate x 36 months +
48 month lease rate x 48 months +
60 month lease rate x 60 months +
Option year 1 (M-F 7am to 5pm on-site warranty) +
Option year 2 (M-F 7am to 5pm on-site warranty) +
Option year 3 (M-F 7am to 5pm on-site warranty) +
Option year 4 (M-F 7am to 5pm on-site warranty) +
Option year 5 (M-F 7am to 5pm on-site warranty) +
Option year 6 (M-F 7am to 5pm on-site warranty) +
Option year 7 (M-F 7am to 5pm on-site warranty) +
Option year 1 (M-F 5pm to 10 on-site warranty) +
Option year 2 (M-F 5pm to 10 on-site warranty) +
Option year 3 (M-F 5pm to 10 on-site warranty) +
Option year 4 (M-F 5pm to 10 on-site warranty) +
