**Invitation to Qualify (ITQ) #W8474-11MP01/M**

**Military Personnel Management Capability Transformation (MPMCT) Project  
Systems Integrator (SI) Requirement**

**For the Department of National Defence (DND) and the Canadian Armed Forces (CAF)**

**Amendment No. 007**

The following is a summary of the amendments issued to date for ITQ #W8474-11MP01/M:

<b>Amendment No.</b>	<b>Date</b>	<b>Comments</b>
001	February 5, 2016	Clarification Question #1
002	February 11, 2016	Clarification Question #2
003	February 16, 2016	Clarification Question #3
004	February 19, 2016	Clarification Questions #4 and 5.
005	February 25, 2016	Clarification Question #6 and ITQ revision #1.
006	February 26, 2016	Clarification Questions #7 and 8, and ITQ revision #2 to extend the ITQ closing date.
007	March 2, 2016	Clarification Question #9 and ITQ revisions #3 and 4.

**Clarification Questions:**

Note, clarification questions are numerically sequenced upon arrival at PWGSC. A question and its answer will be provided via the Government of Canada's tendering web site BuyandSell.gc.ca as responses become available. Potential Respondents are therefore advised that questions and answers may be issued via BuyandSell.gc.ca out of sequence.

The following clarification questions were received from potential Respondents. In accordance with Article 13 under the 2003 (2015-07-03) Standard Instructions - Goods or Services - Competitive Requirements, which has been incorporated into the ITQ, in accordance with Article 2.1.3 of the ITQ, the clarification questions and corresponding answers are being provided to all potential Respondents as set out below:

**Question #9:**

In Amendment 003, Answer #3 it states that "Canada encourages companies to form Joint Ventures in cases where they would benefit from leveraging one another's experience". Based on this recommendation we ask that M3 be modified to allow for at least two different Documented Software Delivery Methodologies as not all joint ventures would follow the identical methodology.

**Answer #9:**

Canada has considered the proposed changes raised in Question 9 and has decided not to make any revisions to the M3 criterion. M3 was developed to specifically measure a Respondent's maturity and capacity to implement and integrate complex PeopleSoft solutions using repeatable processes and procedures as defined for a Documented Software Delivery Methodology. If M3 was modified to accept 2 different Documented Software Delivery Methodologies, it would remove DND's ability to assess consistently a Respondent's maturity, and capacity to implement and integrate complex PeopleSoft Solutions.
