### **Amendment 003**

This amendment has been raised to answer questions from vendors and extend the closing date.

Q1: Section 1.2 mentions the top 4 CSC controls. CSC controls # 1 to 3 are clearly addressed in this RFI. How are you planning to address CSC #4: Continuous vulnerability assessment and remediation which is not addressed in this RFI? Will there be a separate RFI for Vulnerability Management?

A1: There will not be a separate RFI for vulnerability management. The RFI has one question related to VM (Question 50), but the RFP may include additional specifications for that capability. Vendors are welcome to provide information on their VM capability if applicable.

Q2: Would SSC consider extending the closing date of the response?

A2: The closing date has been extended to March 16, 2016 at 2:00 pm.
