

Addenda #1

RFP: Uniformed Security Guard Services for Granville Island

RFP File #201600522

Question #1:

Section 4.11 Pricing Proposal - In the pricing section, A, B, and C level guards have been requested. Can you please define the criteria for each level of guard (A, B and C)?

Response #1:

A, B, C level guards – CMHC is unable to define the criteria for each level. It was imparted to CMHC during the previous tender process that the Security Guard industry has a standard for qualifications which are divided as A, B and C depending on qualifications and experience. CMHC is relying on proponent's to use their industry knowledge to provide pricing based on the industry standards.

Question #2:

Section 3.3.5 Equipment, Supplies, and Workspace - Is internet provided for in the security office, or is that the responsibility of the contractor to install and maintain?

Response #2:

As outline in Section 3.3.5: The Proponent, at their cost (including initial setup and ongoing), will provide and maintain a computer, access to the internet, and a printer.

The proponent is responsible to install and maintain.
