This amendment 002 is raised to extend the closing date to April 5, 2016 and to provide a response to a supplier enquiry. The question and response are provided as follows:

=====

DELETE: March 22, 2016

INSERT: April 5, 2016

=====

Question: Are the items awarded to providers on a per item basis or is the RFP to be awarded to one provider.

Response: As identified in the RFP at Part 4, para. 4.2 Basis of Selection, items with identical NSN's will be awarded as a group. As there are several NSN's, there is a possibility of multiple awards.

=====

Question: Can we obtain design dimensions and diagrams of the products required?

Response: No, we cannot provide drawings or anything else from a third party.

=====

Question: Submission Deadline - Would the Government of Canada consider extending the deadline for submission in order to allow for the submission of an equivalent product? Specifically, in reference to Para 2.1.2 we would need some additional time to prepare additional documentation to demonstrate the equivalent products meets or exceeds form, fit, function and quality.

Response: Canada has no problem with an extension.

=====

Question: In order to ensure that the correct equivalent product is submitted, can the Government of Canada provide bidders with information on the systems to which these headsets will be connected, and the intended use of these headsets. This will assist bidders in ensure the best possible submission of equivalent competitive products that meet or exceed the existing requirements.

Response: These items are used on radios. Additional item descriptions have been attached.

=====

Question: Is it required that all line items be submitted in the initial bid, or is it possible to submit the bid for specific line items?

Response: No. As identified in the RFP, Part 3, para. 3.1.1 Pricing-Multi-Item Bid Solicitation, bidders do not have to quote a price for every item in the RFP.

=====

All clauses and conditions remain unchanged.
