**The purpose of this amendment is to answer bidder questions, amend the period of the standing offer, extension of the standing offer and the Basis of Payment.**

**Question 1:**

With Regards to Annex B, Basis of Payments, the part numbers for the following items have changed:

Item 1 - Current Part Number 116431-132

Item 5 - Current Part Number 806026-001

Item 6 - Current Part Number 812961-011

Item 7 - Current Part Number 816322-011

Item 9 - Current Part Number 806168-001

Item 10 - Current Part Number 811757-002

Item 17 - Current Part Number 811757-007

Item 18 - Current Part Number 811757-002

Will you accept the current part numbers?

**Answer 1:**

Yes, the Department of National Defence has confirmed the new part numbers with the exception of item #6 and item #7, item # 6 is 812961-111, and item #7 is 816322-111. The part numbers have been updated in Annex B, Basis of Payment attached below. The submitted Basis of Payment must reflect the new part numbers.

**Question 2:**

With regards to items 26, 27, 29-32 that accept equivalent products in the Basis of Payment, how will you evaluate equivalency?

**Answer 2:**

Pumps and motors must meet the same or exceed the manufacturer's specifications of the requested item to be considered compliant

**Question 3:**

With Regards to Annex B, Basis of Payments: although #18 and #10 have the same part numbers, items 17 & 18 in the quote were listed with Horsepower ratings and voltages. Pump ends themselves (Volutes) don't have these ratings. They might be rated to operate on specific horsepower and speeds but they

don't require voltage. When a motor manufacturer sells a 'Pump' that pump always has to include a motor. It is what operates the pump in the first place. Unless they are specifically selling you a Pump end or similar volute.

All of the information listed in the Request for Proposal package made me assume you were asking for an Armstrong pump motor.

Please provide additional information.

**Answer 3:**

This is correct, item #17 and 18 are Armstrong pump motors. However, please note that although #18 and #10 have identical part numbers, they are not the same motor, therefore, their descriptions form a part of the requirement along with the part number.

**Question 4:**

I have the following questions with regards to Annex B-1,5

Item 1: Refers to two pumps, H51 and STD 1.B

- Which pump is required?
- Voltage and phase required?
- Are the pumps cast iron or bronze body?

Item 5: Refers to 806026-002 Coupling assembly

- No such number, could it possibly be  
A 806026-001 coupler for S25 pump?

Item 6: Refers to 812961-11 S25 Impeller

- No such number, could it possibly be  
A 812961-011 Steel impeller or  
816961-041 Bronze impeller or  
816961-111 Nonferrous impeller?

Item 7: Refers to 816322-012 S34 Impeller

- No such number, could it possibly be  
A 816322-112 S34 Noryl impeller?

Item 10: Refers to 81757-003 Motor 3/60/230

- No such number and voltage not

---

Correct, please advise correct voltage

Such as 575/3/60 or 208/3/60

Item 14: Refers to S25 Pump

-Please advise if it is cast iron body

Or Bronze body?

**Answer 4:**

Item 1: H51 Pump is required; Voltage and phase: 1/4 HP Ph1; The pump is Cast Iron.

Item 5: The new part number is 806026-001 coupler for S25 pump.

Item 6: The new part number is 812961-111 Noryl impeller.

Item 7: The new part number is 816322-111 Noryl impeller.

Item 10: The new part number is 811757-002, the correct spec is: 115/230V, 1Ph, 60hz, or 115/230 /1/60 in the requested format.

Item 14: The body is cast iron.

**Question 5:**

It is our opinion that requesting a five year bid on this type of product is not realistic or plausible. No one knows where the exchange rates, base metal prices of steel and copper will be in a year far less 5 years. We would request that this tender be amended to a one year term with possible options to renew."

**Answer:**

All options are irrevocable, renewal is at the sole discretion of Canada. However, the option periods are being reduced from 4 periods to 2 periods, for a total of 3 years including the firm year requirement.

**At 6.4.1Period of the Standing Offer**

**Delete:**

In its entirety;

**Insert:**

The period for making call-ups against the Standing Offer is from Date of Issuance to one year from Contract Issuance.

**At 6.4.2Extension of Standing Offer**

**Delete:**

In its entirety;

**Insert:**

If the Standing Offer is authorized for use beyond the initial period, the Offeror offers to extend its offer for an additional two (2) one year periods, from one year from Contract Issuance to three years from Contract Issuance under the same conditions and at the rates or prices specified in the Standing Offer, or at the rates or prices calculated in accordance with the formula specified in the Standing Offer.

The Offeror will be advised of the decision to authorize the use of the Standing Offer for an extended period by the Standing Offer Authority 1 day before the expiry date of the Standing Offer. A revision to the Standing Offer will be issued by the Standing Offer Authority.

**At Annex B, Basis of Payment,**

**Insert:**

**ANNEX "B"**

**BASIS OF PAYMENT**

The Offeror must provide firm pricing for all items. The format of the Pricing must not be altered except for the addition of numbers in all of the blank spaces. Pricing must not be indexed to any currency exchange rates or commercial index.

All prices are firm net prices in Canadian funds including Canadian customs duties, excise taxes, and are to be FOB destination(s) indicated, including all delivery charges. GST/HST shall not be included in pricing and shall be shown as a separate item on invoices.

The estimated usages provided herein is for the sole purpose of establishing an evaluation tool and are based only on best estimate, previous history and forecasted usage. Estimated usage in no way reflects the actual usages expected or any commitment on the part of the Crown.
